**Subject:** Fwd: FW: Ifluenza Test Kits - Swabs

Here is a resource for swabs if needed.

Thank You

Denny

Here is a supplier for swabs. This message will be sent to all County EMA Directors.

Thank you,  
Candice

Subject: FW: Ifluenza Test Kits - Information request only

Steve,

I have another possible source for swabs, in addition to Jan's:

Question:

We needed "40 real time PCR swabs, with viral culture medium, for use at local physician's offices and clinics. These swabs must have a synthetic shaft of either polyester or Dacron and have an aluminum or plastic shaft. The swabs CANNOT be calcium algemate."

Answer:

From Diversa Medical Supply (330-239-0969 Phone):  
"You are also inquiring about swabs, we can get a Dacron specimen swab with aluminum shaft .035 diameter, 5.5" in length, sterile, 1/pch, 100 pch/bx,10bx/cs. Part # for this product is #100D Purfybr is the manufacturer."

Thanks,

Terry Spiropoulos, CPPB
