

**APPENDIX E: 2005 MITIGATION ACTION PLAN TABLE**

Action	Goal / Objective Reference	Hazard	Lead Agency	Priority	Status	Complete
Create a 5-year strategic plan for the ODNR Floodplain Management Program.		Flooding	ODNR, FMP		Finished	Y
Increase public awareness through participation on the Severe Weather Awareness Committee.		Flooding	ODNR, OEMA, ODOD, OEPA-DEFA, ODH		Ongoing; complete for time period	Y
Promote comprehensive and integrated state floodplain management by participating on the SHMT.		Flooding	ODNR, FMP		Ongoing; complete for time period	Y
Promote comprehensive and integrated state floodplain management by reviewing applications for permits and applications for financial assistance to ensure compliance with floodplain management standards from other state agencies where memoranda of agreement and understanding are in place.		Flooding	ODNR, FMP		Ongoing; complete for time period	Y
Implement flood mitigation and recovery strategy based on activities described in the ODNR, Division of Water, and Floodplain Management Program Standard Operating Procedure (SOP) for Flood Disasters as necessary.		Flooding	ODNR, FMP		Ongoing; complete for time period	Y
Provide community training and technical assistance by conducting community monitoring and feedback activities (CAVs, CACs, etc.) agreed to in annual CAP.		Flooding	ODNR, FMP		Ongoing; complete for time period	Y

Action	Goal / Objective Reference	Hazard	Lead Agency	Priority	Status	Complete
Provide community training and technical assistance through assistance to communities on complex issues involving the NFIP and Map Modernization, newsletter production, FLR workshops, coordinating state FPM conference.		Flooding	ODNR, FMP		Ongoing; complete for time period	Y
Formalize the SHMT.		Flooding	OEMA		Expanded SHMT, did not get formal rule. Modified action in 2008 update	N
Implement flood mitigation and recovery strategies through better utilization of the Structure Inventory to improve the accuracy of Ohio's vulnerability analysis.		Flooding	ODNR & OEMA		Utilized it but have not populated database. Will not be a goal in the 2008 update	N
Educate the general populous regarding specific NOAA weather announcements.		Tornado	NWS		Ongoing; complete for time period	Y
Provide the general populous with the hardware necessary to receive NWS hazard/weather information.		Tornado	County & Local Officials		Ongoing funded some HMGP projects for NOAA weather radios. Will not be a goal in the 2008 update, although there are actions related to warning systems	Y
Encourage local jurisdiction to obtain Storm Ready certification.		Tornado	NWS		Ongoing; complete for time period	Y
Support through the OEMA communication's branch maximum NWS weather radio signal broadcast across the state.		Tornado	OEMA		Ongoing; complete for time period	Y
Utilize HMGP and PDM funding to build / install residential safe rooms.		Tornado	OEMA		Ongoing; complete for time period	Y
Utilize HMGP and PDM funding to build / install group safe rooms.		Tornado	OEMA		Ongoing; complete for time period	Y

Action	Goal / Objective Reference	Hazard	Lead Agency	Priority	Status	Complete
Utilize HMGP five percent initiative to fund tornado warning sirens.		Tornado	OEMA		Ongoing; complete for time period. Modified action to develop overall guidance on warning systems in 2008 update	Y
Work with the Ohio Schools Facilities Commission to incorporate tornado safe locations in the design standards.		Tornado	OEMA		No work to date. Discontinued in 2008.	N
Use upgraded components and existing landslide road construction techniques to counteract the affects of the hazard.		Landslide	ODOT & County Local Road Maintenance Departments		Unknown	?
Utilize 406 mitigation funds for road reconstruction and mitigation funding programs to permanently resolve landslide hazard locations.		Landslide	Region-V / OEMA		Ongoing; complete for time period. Funded landslide project and worked with PA program on 406 mitigation in recent disasters	Y
Utilize 404 mitigation funds to remove structures from landslide hazard exposure.		Landslide	Region-V / OEMA		Ongoing; complete for time period	Y
Educate the general populous regarding specific actions, which will reduce the danger of exposure to severe winter storms.		Winter Storm	Severe Weather Committee		No work to date. Modified action in 2008 update to develop and publish techniques for winter storm / blizzard / ice mitigation	N
Support the Department of Aging efforts to protect the lives of Passport and Meals on Wheels program recipients.		Winter Storm	Ohio Dept. of Aging		No work to date. Will discontinue in 2008 update	N
Reduce structural inventory susceptibility to severe winter storms.		Winter Storm	ODC, Board of Building Standards		No work to date. Will discontinue in 2008	N

Action	Goal / Objective Reference	Hazard	Lead Agency	Priority	Status	Complete
Reduce utility disruption due to severe winter storms.		Winter Storm	PUCO		Ongoing; complete for time period	Y
Application of ice and snow control measures immediately prior to an events onset.		Winter Storm	ODOT		Ongoing; complete for time period	Y
Develop an emergency action plan and inundation maps/ EAPs where needed for 10 high hazard dams.		Dam Failure	ODNR-DDS		Ongoing. Modified actions in 2008 update to reflect priorities.	N
Develop a standardized framework for emergency action plans and inundation maps.		Dam Failure	ODNR-DDS		Ongoing. Modified actions in 2008 update to reflect priorities.	N
Enhance state mitigation plan to include summer storm, Lake Erie coastal flooding and erosion, land subsidence, wildfire, drought, and earthquake risk and vulnerability assessment.		various	OEMA Mitigation Branch		Complete. All included in 2008 update	Y
Identify and develop Ohio profile for potential hazardous material issues, terrorism, and natural biohazards.		technological, epidemiological	OEMA Plans Branch		Complete by other branches. Not included in mitigation plan except modified form of biohazards; changed to invasive species	Y
Continue to develop the State of Ohio's flood hazard risk and vulnerability assessment using the ODNR DW structure inventory and .1 flood event maps.		Flood	ODNR-DW		Inventory disseminated to communities for their use and population. Work continuing	N
Utilize the anticipated new release of HAZUS-MH due out by the end of calendar year 2004 to develop loss estimated for Ohio's flood hazard.		Flood	OEMA Mitigation Branch		Completed runs for half of Ohio counties in 2008 update. Will continue until all are complete.	N

Action	Goal / Objective Reference	Hazard	Lead Agency	Priority	Status	Complete
Develop an inventory of state-owned facilities at risk from natural disasters used for response and recovery functions, including ongoing collection of state-owned structure information.		Various	OEMA Mitigation Branch		Collected data utilizing FEMA DAE resources after declared disasters.	N
Update the state plan with new hazard and action item information from certified local plans.		Various	OEMA Mitigation Branch		2008 update included information - mostly used to ground truth assumptions. Integrating information ongoing goal	N
Develop a standard operating procedure for assessing the losses avoided and generating success stories through completed mitigation projects.		Planning	OEMA Mitigation Branch		Now standard after every flood event to collect information for success stories. Web portal project will use methodologies for assessing losses avoided.	N
Develop a long-term plan for the mitigation of vulnerable state-owned critical facilities.		Planning	OEMA Mitigation Branch		No activity reported	N
Develop a long-term plan to ensure open-space deed restrictions are enforced.		Planning	OEMA Mitigation Branch		Continuing to work on plan/process	N
