

LIMITED DISTRIBUTION

STATE OF OHIO

Multi Year Training and Exercise Plan

2014 - 2016

PREFACE

State of Ohio

The State of Ohio has taken great strides toward increasing the safety of its citizens, key infrastructure, and economy from natural and man-made disasters. As incidents across the country and around the world over the several past years have shown, there is a need to focus efforts in an all-hazards approach toward emergency preparedness and response. The State of Ohio, in its efforts to prevent, protect, mitigate against, respond to, and recover from incidents affecting its security, whether natural or man-made, has realized the need to embrace a capabilities-based approach to training and exercising. In embracing this approach, the State has identified a need to coordinate planning, training, and exercising to strengthen the State's overall preparedness. Training and exercising provides the State with a means of attaining, practicing, validating, and improving its capabilities.

The State's Homeland Security Training and Exercise Programs are administered by the Ohio Emergency Management Agency (OEMA), with valued cooperation and contributions from nonprofit organizations, private industry, and local, State, and Federal agencies. To achieve the State's vision of a safe, secure and sustainable Ohio, stakeholders convened to develop this Multi-Year Training and Exercise Plan (TEP) December 9, 2013. Accomplishment of the broad goals and specific objectives outlined herein, as well as the continued commitment of all parties to the preparedness process, will better equip the State of Ohio to protect its citizens from all hazards, whatever the kind, whatever the cause.

POINTS OF CONTACT (POCs)

State of Ohio

Ohio State Administrative Agent:

Nancy Dragani
Executive Director
Ohio Emergency Management Agency
2855 West Dublin Granville Road
Columbus, OH 43235-2206
Office: (614) 889-7152

Ohio Training Point of Contact (POC):

David Nunley
Training and Exercise Supervisor
Ohio Emergency Management Agency
2855 West Dublin Granville Road
Columbus, OH 43235-2206
Office: (614) 799-3677
Fax: (614) 799-3823
E-mail: dbnunley@dps.state.oh.us

Ohio Exercise POC:

Darren Price, MEP
Exercise Program Manager
Ohio Emergency Management Agency
2855 West Dublin Granville Road
Columbus, OH 43235-2206
Office: (614) 799-3660
Fax: (614) 799-3823
E-mail: deprice@dps.state.oh.us

U.S. Department of Homeland Security (DHS) Preparedness Officer:

Dorothy Hayes-Long, Program Analyst
FEMA/DHS Preparedness Grants Division-Grant Program Directorate
500 C Street, SW
Washington, DC 20472
Office: (202) 350-1057
E-mail: dorothy.long@dhs.gov

Federal Emergency Management Agency (FEMA) Region V Exercise Officer:

Marc J. Chmielewski
Regional Exercise Officer
FEMA Region V
536 South Clark St.
Chicago, IL 60605
Office: (312) 408-4448
E-mail: marc.chmielewski@dhs.gov

PURPOSE

State of Ohio

The Multi-Year Training and Exercise Plan (TEP) is a roadmap for the State of Ohio and its Urban Area Security Initiative (UASI) areas to follow in accomplishing the priorities described in the State of Ohio State Homeland Security Strategy, and is linked to the State Preparedness Report. It is a living document that will be reviewed and updated on an annual basis. Each priority is linked to an Improvement Plan (IP) effort. The priority is further linked to the associated target capabilities that would facilitate accomplishment of a given priority, as well as the training and exercises that will assist in obtaining and/or validating those capabilities.

Included in the Multi-Year TEP is the Training and Exercise Schedule, which provides a graphic illustration of the proposed activities scheduled from January 2014 until December 2016. It is representative of the natural progression that should take place in accordance with the progressive planning and building-block approach to training and exercises.

OHIO EXERCISES AFTER ACTION REPORT/IMPROVEMENT PLAN (AAR/IP) EVALUATION AND ANALYSIS

State of Ohio

Introduction

An After Action Report (AAR)/Improvement Plan (IP) Evaluation and Analysis Report was developed for exercises conducted in the State of Ohio during the years 2011–2012. The purpose of the analysis was to summarize data from AARs/IPs for real-world events and exercises conducted in the State of Ohio. Information from this report served as a data source to facilitate the planning and conduct of the December 9, 2013 Training and Exercise Plan Workshop (TEPW).

Approach

A review of the AAR/IP corrective actions that were assigned to the objective/capability provided the foundational data for this effort. Additional consideration was given to any other areas of the AARs/IPs that point out the need for corrective actions or improvement. This information was grouped by individual target capabilities.

Analysis

Data was grouped by capability for each event/exercise. The aggregate data for the significant data elements for the number of exercises evaluating a particular capability was examined. Moreover, the number of corrective actions and recommendations for each capability was evaluated. Table 1, Parts 1 and 2, summarize this data.

Table 1 - Number of exercises and corrective actions/recommendations for each capability

Part 1

Target Capabilities - Part 1								
	Citizen Evacuation and Shelter-in-Place	Communications	Critical Resource Logistics and Distribution	Economic and Community Recovery	Emergency Management Assistance Compact (EMAC)	Emergency Operations Center (EOC) Management	Emergency Public Information and Warning	Emergency Public Safety and Security Response
# of Exercises Using Capability	5	17	7	2	1	12	11	6
Total # of Corrective Actions/ Recommendations for Capability	8	34	28	7	1	48	40	14

Table 2 - Number of exercises and corrective actions/recommendations for each capability

Part 2

	Target Capabilities - Part 2							
	Emergency Triage and Pre-Hospital Treatment	Fatality Management	Fire Incident Response Support	Mass Care (Sheltering, Feeding, and related Services)	Medical Surge	On-Site Incident Management	Responder Safety and Health	Weapons of Mass Destruction (WMD) and Hazardous Materials (HazMat) Response and Decontamination
# of Exercises Using Capability	2	1	5	2	7	11	5	3
Total # of Corrective Actions/Recommendations for Capability	9	1	15	4	23	44	17	4

Figure 1 exhibits the data for the number of exercises that evaluated a particular capability.

Figure 1: Number of exercises per capability

Figure 2 exhibits combined data of the number of exercises for:

- The number of exercises for a particular capability
- The total number of corrective actions/recommendations for a particular capability

Figure 2: Number of exercises and number of corrective actions/recommendations per capability

Results

The TEPW is the forum for developing, reviewing, and updating a TEP and Schedule. During the TEPW, jurisdictional program progress and accomplishments are reviewed. By reviewing the AAR/IP Analysis, TEPW participants can then identify needed updates and modifications to the Multi-Year Training and Exercise Schedule.

Information gleaned from this review can be cross-walked with the State's Homeland Security Strategy and State Preparedness Report, with improvement actions being evaluated via real world events and exercises. In doing so, a validation of the identified priorities can be measured based upon the improvements to preparedness that have occurred.

PROGRAM PRIORITIES

State of Ohio

Based on the guidance provided by the U.S. Department of Homeland Security (DHS) in the National Preparedness Guidelines, the State of Ohio has identified the priorities that serve as the foundation of the State of Ohio/UASI Multi-Year Training and Exercise Plan.

Results from the AAR/IP Analysis, the Training and Exercise Needs Survey, the Statewide Training Needs Assessment, and informal feedback from across the state, indicated a need for a program focus on the following priorities:

- 1. Implementation of Presidential Policy Directive (PPD) 8 and the Whole Community Approach.** The intent of PPD-8 is to ensure a secure and resilient nation with the capabilities required across the whole community to prevent, protect against, mitigate, respond to, and recover from the threats and hazards that pose the greatest risk. The intent of this priority is to encourage the involvement of everyone, not just the government, in preparedness efforts. The Whole Community approach includes individuals and families, including those with access and functional needs; businesses; faith-based and community organizations; nonprofit groups; schools and academia; media outlets; and all levels of government, including local, tribal, territorial, State, and Federal partners.
- 2. Expand Regional Collaboration.** It is vital to enhance efforts by local, State, and Federal entities to communicate and coordinate with one another, the private sector, nongovernmental organizations, and individual citizens. The intent of this priority is to establish and enhance standardized structures and processes for collaboration to enable all entities the ability to collectively manage and coordinate activities for operations and preparedness consistently and effectively.
- 3. National Incident Management System (NIMS)/Operational Coordination; includes a focus on Emergency Operations Center (EOC) Operations and On-Site Incident Management.** The NIMS provides a consistent framework for entities at all levels to work together and manage incidents regardless of cause, size, or complexity. This includes a core set of guidelines, standards, and protocols for command and management, preparedness, resource management, communications and information management, supporting technologies, and coordination and maintenance to promote interoperability and compatibility among local, State, and Federal agencies.
- 4. Chemical, Biological, Radiological, Nuclear, and High-Yield Explosives (CBRNE) Detection and Response (includes collapse search and rescue teams, Hazardous Materials (HazMat) teams, and bomb squads).** CBRNE materials that can be used as Weapons of Mass Destruction (WMDs) to produce thousands of casualties as a consequence of a single attack are inherently a high risk. The capability to detect and respond to such incidents is imperative. Since the potential number of terrorist targets is large, and the threats and means of delivery are varied, a layered defense against WMDs must be developed. An effective CBRNE detection and response infrastructure will ensure CBRNE materials are rapidly detected, identified, and safely managed at critical locations, events, and incidents. CBRNE training and exercises includes activities to address the immediate and short-term actions to preserve life, property, environment, and the social, economic, and political structure of the community.

I. Implementation of PPD 8 and the Whole Community Approach.

The following exercises and training courses support the Implementation of PPD-8 and the Whole Community Approach priority:

Exercises

2014

- Otterbein University Tabletop Exercise (TTX), January, 2014
- North East Ohio (NEO) Metropolitan Medical Response System (MMRS) ICS Review Seminar, January, 2014
- NEO MMRS Recovery TTX, January, 2014
- NEO Hospitals National Disaster Medical System (NDMS) Drill (3), January, 2014
- State Ohio Department of Health/Ohio Health Association (ODH/OHA) Multi-Agency Communication Systems (MARCS), Ohio Public Health Communication System (OPHCS) Drill, January, 2014
- ODH Infectious Disease Days (Seminar), January, 2014
- Homeland Response Force Consequence Management Operations Functional Exercise (FE), January, 2014
- Case Western Reserve University TTX, Monthly, 2014
- Cuyahoga County Medical Examiner (ME) and HazMat Full-Scale Exercise (FSE), February, 2014
- Cuyahoga County Emergency Support Function (ESF) HazMat-Rail Car TTX, February, 2014
- Cuyahoga County Local Emergency Planning Committee (LEPC) FE, February, 2014
- Cleveland Office of Emergency Management (OEM) Cuyahoga Jewish Federation Active Shooter TTX, February, 2014
- Franklin County – Columbus Public Utilities (CPU) Upground Reservoir Plan Drill, February, 2014
- NEO MMRS SMART Objectives Workshop, February, 2014
- NEO Hospitals MARCS, OHTrac Drill, February, 2014
- NEO MMRS 19-NEO CC LEPC FE, February, 2014
- NEO Hospitals SurgeNET Drill (3) , February, 2014
- State ODH/OHA MARCS Drill, February, 2014
- Bureau of Motor Vehicles (BMV) Continuity of Operations Plan (COOP) Investigations & Special Operations Multiple Drills, February, 2014
- Lucas County Mass Casualty Incident (MCI) TTX, March, 2014
- Summit County Incident Command System/Emergency Operations Center (ICS/EOC) Seminar, March, 2014
- Miami County HazMat LEPC TTX, March, 2014
- Franklin County Major Special Events TTX Columbus Police Department/Columbus Fire Department (CPD/CFD), March, 2014
- Hocking County LEPC Exercise, March, 2014
- Warren County EOC Drill/FE, March, 2014
- Toledo/Lucas Multiple County MCI Terrorist/Improvised Explosive Devices (IED) Active Shooter TTX, March, 2014
- NEO MMRS Incident Action Plan (IAP) Forms Workshop, March, 2014

- NEO Hospitals MARCS, OPHCS, Strategic National Stock Pile (SNS)/Hospital Command Center (HCC) Drill, March, 2014
- NEO Hospitals NDMS Drill (3) Hospital SNS Request Drill, March, 2014
- State ODH/OHA MARCS, OPHCS Drill, March, 2014
- Cuyahoga County ME FSE, April, 2014
- Cuyahoga County Citizens Corps Shelter Management TTX, April, 2014
- Cuyahoga County Urban Search and Rescue (USAR) and Public Works TTX, April, 2014
- Cleveland Fusion Center Cuyahoga County Indian Community and Fusion TTX, April, 2014
- Montgomery County Mass Fatality FSE 4/17, April, 2014
- Shelby County FE, April, 2014
- Darke County Mass Casualty Incident TTX, April, 2014
- Coshocton County LEPC HazMat TTX, April, 2014
- Franklin County Chemical Emergency Preparedness Advisory Council (CEPAC) HazMat TTX, April, 2014
- Delaware County Biannual EOC (Natural Disaster) FE, April, 2014
- Franklin County Cities Readiness Initiative (CRI) Regional TTX, April, 2014
- Warren County G386 MCI FE, April, 2014
- Cincinnati UASI 2nd Quarter Awareness & Response to Biological Events Training, April, 2014
- NEO MMRS Public Information (PI) Joint Information Center (JIS) Drill, April, 2014
- NEO Hospitals MARCS, OHTrac Drill, OHTrac Training, April, 2014
- NEO Hospitals Surge net Drill (3), April, 2014
- State ODH/OHA MARCS, Surge net Drill (6), April, 2014
- NEO MMRS Federal Emergency Management Agency (FEMA) Devolution Workshop, April, 2014
- OEMA Director's Spring Seminar G-200, April, 2014

- Delaware/Union County Weather Spotter Training, February, 2016
- Delaware County OH-230 Into to Emergency Management in Ohio, March, 2016
- Delaware County HazMat IQ, March, 2016
- Delaware County Weather Spotter Training, March, 2016

- Fairfield County Weather Spotter Training, March, 2016
- Franklin County Weather Spotter Training, March, 2016
- Fairfield County HazMat Awareness Ops & Tech Training, April, 2016
- Pickaway County Weather Spotter Training, April, 2016
- Delaware County HazMat Tech, May, 2016
- Pickaway County EOC Training, May, 2016
- Fairfield County Blue Card/ICS Training, June, 2016
- Delaware County ICS-300/400, July, 2016
- Fairfield County HazMat IQ, July, 2016
- SIEC OEC TBD, July, 2016
- Franklin County SNS Training, October, 2016
- SIEC OEC-TBD, October, 2016
- OEPA Radiological Assessment, November, 2016

The associated target capabilities that will be validated and enhanced as a result of these exercises and training courses are:

- CBRNE Detection
- Citizen Evacuation and Shelter-In-Place
- Communications
- Community Preparedness and Participation
- Critical Infrastructure Protection
- Critical Resource Logistics and Distribution
- Economic and Community Recovery
- EOC Management
- Emergency Public Information and Warning
- Emergency Public Safety and Security Response
- Environmental Health
- Fatality Management
- Food and Agriculture Safety and Defense
- Information Gathering and Recognition of Indicators and Warnings
- Intelligence and Information Sharing and Dissemination
- Mass Care (Sheltering, Feeding, and Related Services)
- Medical Supplies Management and Distribution
- Medical Surge
- On-Site Incident Management
- Responder Safety and Health
- Restoration of Lifelines
- Search and Rescue (Land-Based)
- Structural Damage and Mitigation Assessment
- Volunteer Management and Donations
- WMD and Hazardous Materials Response and Decontamination

II. Expand Regional Collaboration

The following exercises and training courses support the Expand Regional Collaboration priority:

Exercises

2014

- MCI Toledo/Lucas Multiple County Terrorist/IED Active Shooter TTX March, 2014
- Warren County MCI FE, April, 2014
- Darke County Mass Casualty Incident TTX April, 2014
- Montgomery County Mass Fatality FSE April, 2014
- Clark County Cyber Security IT departments and offices TTX June, 2014
- Homeland Security Region 2 Lake MMRS-Recovery TTX, June, 2014
- Homeland Security Region 2 Lorain MMRS-Recovery TTX, June, 2014
- Homeland Security Region 2 Cuyahoga MMRS-Recovery TTX, June, 2014
- Homeland Security Region 2 Ashtabula MMRS-Recovery TTX, June, 2014
- Homeland Security Region 2 Geauga MMRS-Recovery TTX, June, 2014
- Knox County Kenyon College FE, August, 2014
- Case Western University ICS Interagency TTX, August, 2014
- Clark County Cyber Security FE September, 2014
- State of Ohio MARCS FSE, September, 2014
- Knox Community Hospital FE, October, 2014
- Case Western University ICS Interagency TTX October, 2014
- Case Western University ICS Interagency TTX November, 2014

2015

- Cuyahoga, Lake, Geauga, and Summit County R-IED FSE March, 2015
- Summit County, Stark County, Canton Akron Airport FSE May, 2015
- State of Ohio MARCS FSE May, 2015
- State of Ohio MARCS FSE September, 2015

2016

- Warren County Mass Casualty Incident FE, April, 2016
- ODOT Multi State Exercise at Field FE, August, 2016
- Contra Flow Cleveland FE July, 2016
- Miami County FSE September, 2016
- Medina County Fire Response Plan Ohio Task Force FSE October, 2016
- Delaware County Regional FE, November, 2016

Training

2014

- Ohio EPA Joint State/Federal on Scene, February, 2014
- Ohio EPA Radiological Assessment Team, May, 2014
- USAR Wide Area Search, July, 2014
- Medina/ Summit Counties Jail Evacuation Planning Course AWR-183, July, 2014
- SIEC OEC Offering, October, 2014
- Ohio EPA Radiological Assessment Team, November, 2014
- Cleveland Fusion Center USCG/Fusion Center Basic LE, 2014

2015

- The Ohio SIEC NPSBN Course, January, 2015
- Ohio EPA Joint State Federal OSC February, 2015
- SIEC OEC May, 2015
- SIEC OEC July, 2015
- SIEC OEC October, 2015

2016

- SIEC OEC, July, 2016
- SIEC OEC, October, 2016

The associated target capabilities that will be validated and enhanced as a result of these exercises and training courses are:

- CBRNE Detection
- Citizen Evacuation and Shelter-In-Place
- Communications
- Critical Resource Logistics and Distribution
- Critical Infrastructure Protection
- Emergency Public Safety and Security Response
- EOC Management
- Explosive Device Response Operations
- Fatality Management
- Fire Incident Response Support
- Intelligence and Information Sharing and Dissemination
- Information Gathering and Recognition of Indicators and Warnings
- Intelligence Analysis and Production
- Law Enforcement Investigations and Operations
- Mass Care (Shelter, Feeding, and Related Services)
- Mass Prophylaxis
- Medical Supplies Management and Distribution
- Medical Surge
- On-Site Incident Management
- Responder Safety and Health
- Search and Rescue (Land Based)
- WMD and HazMat Response and Decontamination

III. NIMS/Operational Coordination (includes a focus on EOC Operations and On-Site Incident Management)

The following exercises and training courses support the implementation of the NIMS/Operational Coordination (includes a focus on EOC operations and on-site incident management) priority:

Exercises

2014

- Otterbein University TTX, January, 2014
- NEO MMRS ICS Review Seminar, January, 2014
- NEO MMRS SMART Objectives Workshop, February, 2014
- BMV COOP Investigations & Special Operations Multiple Drills February/March, 2014
- Franklin County Major Special Events TTX CPD/CFD, March, 2014
- Warren County EOC Drill/FE March, 2014
- NEO MMRS IAP Forms Workshop, March, 2014
- Delaware County EOC FE (Natural Disaster) April, 2014
- Shelby County FE, April, 2014
- Franklin County CRI Regional TTX, April, 2014
- Warren County MCI FE April, 2014
- Cuyahoga County Fusion TTX April, 2014
- Summit County ICS/EOC Seminar, May, 2014
- COTS Social Media FE May, 2014
- Cuyahoga County ESF EOC Special Needs TTX, June, 2014
- Licking County TTX, June, 2014
- Delaware County COOP Activation TTX, June, 2014
- Summit County Mass Casualty Incident FE, June, 2014
- Cuyahoga County Bridge Collapse TTX, August, 2014
- Franklin County CRAA/ Columbus Mass Casualty FE, August, 2014
- Knox County Kenyon College FE, August, 2014
- Franklin County Sr. Officials Workshop, August, 2014
- Licking County Communication TTX, August, 2014
- Delaware County EOC FE, August, 2014
- Warren County EOC Drill/FE, August, 2014
- ODNR Buckeye Lake Dam Safety FE August, 2014
- Case Western University Interagency TTX August, 2014
- Summit County ICS/EOC Seminar, September, 2014
- Cuyahoga County EOC Activation FSE, September, 2014
- Clark County Cyber Security FE September, 2014
- FCEMHS MSA FE, September, 2014
- Cuyahoga County ESF-EOC Tornado TTX, October, 2014
- Medina County State Type III IMT TTX, October 2014
- Darke County Mass Casualty Incident FSE October, 2014
- Licking County TTX COOP-Active Shooter Terrorism, October, 2014
- Case Western University Interagency TTX October, 2014
- Delaware County EOC Dam Inundation FE, November, 2014
- Cleveland Division of Water TTX November, 2014

- Cuyahoga County Disaster Wild Animal Rescue TTX, November, 2014
- Case Western University Interagency TTX November, 2014
- Warren County IMT FE, November, 2014

2015

- Cuyahoga County Hopkins Airport TTX January, 2015
- Delaware County EOC (Natural Disaster) FE January, 2015
- Cuyahoga County Unified Command TTX March, 2015
- Cuyahoga, Lake, Geauga, and Summit County Regional-IED FSE March, 2015
- Miami County LEPC FE March, 2015
- Toledo MMRS FSE March, 2015
- Medina County TTX April, 2015
- Delaware County Biannual EOC FE April, 2015
- ODNR Buckeye Lake Dam Safety Failure FSE, April, 2015
- Pickaway County LEPC EOC FE May, 2015
- Cuyahoga County Bridge Collapse FSE June, 2015
- Licking County Active Shooter Terrorism FE June, 2015
- The Ohio SIEC Communication Vehicle FE June, 2015
- Cuyahoga County Recovery TTX July, 2015
- Toledo MMRS NDMS FE July, 2015
- Cuyahoga County NE Ohio Region 8 Fusion FE August, 2015
- Knox County - Kenyon College FE August, 2015
- Delaware County EOC FE, August, 2015
- Warren County EOC Drill/FE, August, 2015
- Licking County Regional FE September, 2015
- FCEMHS MSA FE September, 2015
- Cleveland OEM Hopkins Airport FSE, September, 2015
- Montgomery County EOC FE, October 2015
- Knox Community Hospital FE October, 2015
- Cleveland OEM EOC Multiple Operational FE October, 2015
- Delaware County Critical Infrastructure FE , November, 2015

2016

- Delaware County EOC Natural Disaster January, 2016
- Warren County EOC FE February, 2016
- Union County HazMat EOC FE March, 2016
- Warren County Mass Casualty Incident FE, April, 2016
- Franklin County Volunteer Management TTX April, 2016
- Union County LEPC EOC FE, May, 2016
- Union County HazMat EOC FE, June, 2016
- Delaware County Dam Failure FE June, 2016
- Franklin County O'Shaughnessy Dam TTX June, 2016
- State of Ohio Contra Flow Cleveland FE July, 2016
- Delaware County EOC FE August, 2016
- Warren County EOC FE August, 2016
- Cleveland Division of Water TTX November, 2016
- Delaware County EOC Critical Infrastructure November, 2016
- Delaware County Regional FE November, 2016

- FCEMHS MSA FE November, 2016
- Franklin County O'Shaughnessy Dam FE, November, 2016

Training

2014

- Fairfield County HazMat Awareness Ops and Tech Training, April, 2016
- Fairfield County HazMat IQ, July, 2016
- Franklin County SNS Training, October, 2016
- OEPA Radiological Assessment November, 2016

The associated target capabilities that will be validated and enhanced as a result of these exercises and training courses are:

- CBRNE Detection

- Communications
- Community Preparedness and Participation
- Critical Resource Logistics and Distribution
- Counter Terror Investigation and Law Enforcement
- Economic and Community Recovery
- Emergency Public Information and Warning Emergency Public Safety and Security Response
- Environmental Health
- EOC Management
- Epidemiological Surveillance and Investigation
- Explosive Device Response Operations
- Fatality Management
- Fire Incident Response Support
- Laboratory Testing
- Medical Surge
- Mass Prophylaxis
- Medical Supplies Management and Distribution
- On-Site Incident Management
- Responder Safety and Health
- WMD and HazMat Response and Decontamination

MULTI-YEAR TRAINING AND EXERCISE SCHEDULE

State of Ohio

The State of Ohio's Multi-Year Training and Exercise Schedule uses a progressive planning and building block approach to plan training courses and exercises based on the State's priorities. The building-block approach outlines a training and exercise regimen that maximizes mutual reinforcement, allows for sensible preparation (e.g., equipment purchase or training courses), and ensures progression in exercise complexity. These projected training and exercise activities are scheduled from January 2014 to December 31, 2016.

APPENDIX A: STATE PRIORITIES

State of Ohio

The following priorities were the focal point of this Multi-Year Training and Exercise Plan (TEP):

- Implementation of Presidential Policy Directive (PPD) 8 and the Whole Community Approach;
- Regional Collaboration;
- National Incident Management System (NIMS)/Operational Coordination (includes a focus on Emergency Operations Center [EOC] operations and On-Site Incident Management);
- Chemical, Biological, Radiological, Nuclear, and High-Yield Explosives (CBRNE) Detection and Response (includes collapse search and rescue teams, HazMat teams and bomb squads).

APPENDIX B: TARGET CAPABILITIES

State of Ohio

COMMON TARGET CAPABILITIES

- Communications
- Community Preparedness and Participation
- Intelligence and Information Sharing and Dissemination
- Planning
- Risk Management

PREVENT MISSION AREA

- Chemical, Biological, Radiological, Nuclear, and High-Yield Explosives (CBRNE) Detection
- Information Gathering and Recognition of Indicators and Warnings
- Intelligence Analysis and Production
- Intelligence/Information Sharing and Dissemination
- Counter-Terror Investigation and Law Enforcement

PROTECT MISSION AREA

- Critical Infrastructure Protection (CIP)
- Epidemiological Surveillance and Investigation
- Food and Agriculture Safety and Defense
- Laboratory Testing

RESPOND MISSION AREA

- Animal Health Emergency Support
- Citizen Evacuation and Shelter-In-Place
- Critical Resource Logistics and Distribution
- Emergency Operations Center Management
- Emergency Public Information and Warning
- Emergency Public Safety and Security Response
- Emergency Triage and Pre-Hospital Treatment
- Environmental Health
- Explosive Device Response Operations
- Fatality Management
- Firefighting Operations/Support
- Isolation and Quarantine
- Mass Care (Sheltering, Feeding, and Related Services)
- Mass Prophylaxis
- Medical Supplies Management and Distribution
- Medical Surge
- On-Site Incident Management
- Responder Safety and Health
- Search and Rescue (Land-Based)
- Volunteer Management and Donations
- Weapons of Mass Destruction (WMD)/Hazardous Materials (HazMat) Response and Decontamination

RECOVER MISSION AREA

- Economic and Community Recovery
- Restoration of Lifelines
- Structural Damage Assessment

APPENDIX C: CORE CAPABILITIES TO TARGET CAPABILITIES CROSSWALK

State of Ohio

In September 2011, the U.S. Department of Homeland Security (DHS) released a revised National Preparedness Goal (NPG). This revised NPG introduced the concept of Core Capabilities. These capabilities are the distinct critical elements necessary for enhancing preparedness and represent a transition from the Target Capabilities List (TCL). They are highly interdependent and will require the use of existing preparedness networks and activities, improve training and exercise programs, promote innovation, and ensure that the administrative, finance, and logistics systems are in place to support these capabilities.

For the purposes of this document, the State of Ohio continues to utilize the TCL as the source of capabilities that are trained and exercised within the State of Ohio. By utilizing the crosswalk listed below, the relationship between the Core Capabilities and the TCL can be easily referenced as appropriate.

Source: *National preparedness goal* (publication). (2011,September). U.S. Department of Homeland Security.

Target Capability List to Core Capabilities Crosswalk	
Target Capability	Cross-Walked Core Capability
NONE	Access Control and Identity Verification
Community Preparedness and Participation	Community Resilience
Citizen Evacuation and Shelter-in-Place	Critical Transportation
NONE	Cybersecurity
Economic and Community Recovery	Economic Recovery
Environmental Health	Environmental Response/ Health and Safety
Responder Safety and Health	
WMD and Hazardous Materials Response and Decontamination	
Fatality Management	Fatality Management Services
NONE	Forensics and Attribution
NONE	Health and Social Services
NONE	Housing
Restoration of Lifelines	Infrastructure Systems
Structural Damage Assessment	
Information Gathering and Recognition of Indicators and Warnings	Intelligence and Information Sharing
Intelligence Analysis and Production	
Intelligence and Information Sharing and Dissemination	

Target Capability List to Core Capabilities Crosswalk

Target Capability	Cross-Walked Core Capability
Counter-Terror Investigation and Law Enforcement	Interdiction and Disruption
NONE	Long-term Vulnerability Reduction
Mass Care (Shelter, Feeding and Related Services)	Mass Care Services
Search and Rescue (Land-based)	Mass Search and Rescue Operations
NONE	Natural and Cultural Resources
Emergency Public Safety and Security Response	On-Scene Security and Protection
Explosive Device Response Operations (EDRO)	
Communications	Operational Communications
Emergency Operations Center (EOC) Management	Operational Coordination
On Site Incident Management	
Critical Infrastructure Protection	Physical Protective Measures
Planning	Planning
Critical Resource Logistics and Distribution	Public and Private Services and Resources
Fire Incident Response Support	
Volunteer Management and Donations	
Emergency Triage and Pre-Hospital Treatment	Public Health and Medical Services
Epidemiological Surveillance and Investigation	
Isolation and Quarantine	
Laboratory Testing	
Mass Prophylaxis	
Medical Supplies Management and Distribution	
Medical Surge	
Emergency Public Information and Warning	Public Information and Warning
NONE	Risk and Disaster Resilience Assessment
Risk Management	Risk Management for Protection Programs and Activities
CBRNE Detection	Screening, Search, and Detection
NONE	Situational Assessment

Target Capability List to Core Capabilities Crosswalk

Target Capability	Cross-Walked Core Capability
Food and Agriculture Safety and Defense	Supply Chain Integrity and Security
Animal Disease Emergency Support	
NONE	Threats and Hazard Identification

APPENDIX D: EXERCISE TYPES

State of Ohio

Discussion-Based Exercises

Discussion-based exercises are normally used as a starting point in the progressive planning and building-block approach and to the cycle, mix, and range of exercises. Discussion-based exercises include seminars, workshops, tabletop exercises (TTXs), and games. These types of exercises typically highlight existing plans, policies, mutual-aid agreements (MAAs), and procedures. Thus, they are exceptional tools for familiarizing agencies and personnel with current or expected jurisdictional capabilities. Discussion-based exercises typically focus on strategic, policy-oriented issues; operations-based exercises focus more on tactical, response-related issues. Facilitators and/or presenters usually lead the discussion, keeping participants on track while meeting the objectives of the exercise.

Seminars

Seminars are generally used to orient participants to or provide an overview of authorities, strategies, plans, policies, procedures, protocols, response resources, or concepts and ideas. Seminars provide a good starting point for jurisdictions that are developing or making major changes to their plans and procedures. They offer the following attributes:

- Informal discussions led by a seminar leader
- Lack of time constraints caused by real-time portrayal of incidents
- Low-stress environment employing a number of instruction techniques such as lectures, multimedia presentations, panel discussions, case study discussion, expert testimony, and decision support tools
- Proven effectiveness with both small and large groups

Workshops

Workshops represent the second tier of exercises in the Homeland Security Exercise and Evaluation Program (HSEEP) progressive planning and building-block approach. Although similar to seminars, workshops differ in two important aspects: participant interaction is increased and the focus is on achieving or building a product (such as a plan or a policy). Workshops provide an ideal forum for the following:

- Building teams
- Collecting or sharing information
- Obtaining consensus
- Obtaining new or different perspectives
- Problem solving of complex issues
- Testing new ideas, processes, or procedures
- Training groups in coordinated activities

In conjunction with exercise development, workshops are most useful in achieving specific aspects of exercise design such as the following:

- Determining evaluation elements and standards of performance
- Determining program or exercise objectives
- Developing exercise scenario and key events listings

A workshop may be used to produce new standard operating procedures (SOPs), Emergency Operations Plans (EOPs), MAAs, Multi-Year Training and Exercise Plans (TEPs), and Improvement Plans (IPs). To be effective, workshops must be highly focused on a specific issue, and the desired outcome or goal must be clearly defined.

Potential relevant topics and goals are numerous, but all workshops share the following common attributes:

- Effective with both small and large groups
- Facilitated, working breakout sessions
- Goals oriented toward an identifiable product
- Information conveyed employing different instructional techniques
- Lack of time constraint from real-time portrayal of incidents
- Low-stress environment
- No-fault forum
- Plenary discussions led by a workshop leader

Tabletop Exercises (TTXs)

TTXs involve key personnel, senior staff, elected or appointed officials who discuss hypothetical scenarios in an informal setting. This type of exercise can be used to assess plans, policies, and procedures or to assess the systems needed to guide the prevention of, response to, and recovery from a defined incident. TTXs typically are aimed at facilitating understanding of concepts, identifying strengths and shortfalls, and achieving changes in the approach to a particular situation. Participants are encouraged to discuss issues in depth and develop decisions through slow-paced problem solving, rather than the rapid, spontaneous decision making that occurs under actual or simulated emergency conditions. The effectiveness of a TTX is derived from the energetic involvement of participants and their assessment of recommended revisions to current policies, procedures, and plans.

TTX methods are divided into two categories: basic and advanced. In a basic TTX, the situation established by the scenario materials remains constant. It describes an emergency incident (i.e., scenario) and brings discussion participants up to the simulated present time. Players apply their knowledge and skills to a list of problems presented by the leader/moderator; problems are discussed as a group; and the leader generally agrees on and summarizes the resolutions.

In an advanced TTX, play revolves around delivery of pre-scripted messages to players that alter the original scenario. The exercise controller (or moderator) usually introduces problems one at a time in the form of a written message, simulated telephone call, videotape, or other means. Participants discuss the issues raised by the simulated problem, applying appropriate plans and procedures.

TTX attributes may include the following:

- Achieving limited or specific objectives
- Assessing interagency coordination
- Conducting a specific case study
- Examining personnel contingencies
- Familiarizing senior officials with a situation
- Participating in information sharing

- Practicing group problem solving
- Testing group message interpretation

Operations-Based Exercises

Operations-based exercises represent the next iteration of the exercise cycle and are utilized to validate the plans, policies, agreements, and procedures solidified in discussion-based exercises. Operations-based exercises include drills, functional exercises (FEs), and full-scale exercises (FSEs). They can clarify roles and responsibilities, identify gaps in resources needed to implement plans and procedures, and improve individual and team performance. Operations-based exercises are characterized by actual response, mobilization of apparatus and resources, and commitment of personnel, usually over an extended period of time.

Drills

A drill is a coordinated, supervised activity usually used to test a single specific operation or function in a single agency. Drills are commonly used to provide training on new equipment, develop or test new policies or procedures, or practice and maintain current skills. Typical attributes include the following:

- A narrow focus, measured against established standards
- Instant feedback
- Performance in isolation
- Realistic environment

Functional Exercises (FEs)

An FE is designed to validate and evaluate individual capabilities, multiple functions, activities within a function, or interdependent groups of functions. Incidents are projected through an exercise scenario with incident updates that drive activity at the management level. An FE simulates the reality of operations in a functional area by presenting complex and realistic problems that require rapid and effective responses by trained personnel in a highly stressful, time-constrained environment.

Response and recovery-focused FEs generally concentrate on exercising the plans, policies, procedures, and staffs of the direction and control branches of Incident Command (IC), Unified Command (UC), and/or multiagency coordination centers (e.g., emergency operation centers [EOCs]). Movement of personnel and equipment is simulated.

Prevention-focused FEs typically concentrate on exercising the plans, policies, procedures, agreements, networks, and staffs of fusion centers or law enforcement agencies with counterterrorism missions. Adversary actions are largely simulated and delivered in the form of shared intelligence; however, some of these actions may be carried out by simulated adversaries, or Red Teams, in a separate but coordinated category of exercise play.

Full-Scale Exercises (FSEs)

The FSE is the most complex type of exercise. FSEs are multiagency, multijurisdictional, multi-organizational exercises that validate many facets of preparedness. They focus on implementing and analyzing the plans, policies, procedures, and cooperative agreements developed in discussion-based exercises and honed in previous, smaller, operations-based exercises. In FSEs, the reality of operations in multiple functional areas presents complex and realistic problems that

require critical thinking, rapid problem solving, and effective responses by trained personnel. During FSEs, incidents are projected through a scripted exercise scenario with built-in flexibility to allow updates to drive activity. FSEs are conducted in real time, creating a stressful, time-constrained environment that closely mirrors real incidents. The level of support needed to conduct an FSE is greater than that needed during other types of exercises.

Response-focused FSEs include many first responders operating under the principles of the National Incident Management System (NIMS) to effectively and efficiently respond to an incident. Personnel and resources are mobilized and deployed to the scene where they conduct their activities as if a real incident had occurred (with minor exceptions). An FSE also may include functional play from participants not located at the exercise incident response site, such as multiagency coordination centers (MACCs), EOCs, or hospitals.

Typical FSE attributes include the following:

- Activating personnel and equipment
- Allocating resources and personnel
- Analyzing memorandums of understanding (MOUs), SOPs, plans, and policies
- Assessing equipment capabilities
- Assessing organizational and individual performance
- Assessing organizational and individual performance
- Demonstrating interagency cooperation
- Exercising public information systems
- Testing communications systems and procedures

The level of support needed to conduct an FSE is greater than needed during other types of exercises. The exercise site is usually extensive with complex site logistics. Food and water must be supplied to participants and volunteers. Safety issues, including those surrounding the use of props and special effects, must be monitored.

FSE controllers ensure that participants' behavior remains within predefined boundaries. Simulation Cell controllers continuously inject scenario elements to simulate real incidents. Evaluators observe behaviors and compare them against established plans, policies, procedures, and standard practices (if applicable). Safety controllers ensure all activity is conducted within a safe environment.
