### K-9 Typing Update

The "Typing Committee" has made the necessary changes to the 2006 document version and has been working under a draft document since 2010. It is unsure where the TAC wants to go with it since some of the K-9 requirements are not necessary within Ohio. Some of the current team certifications and classes are not involved in this document. This lead the group into the discussion as to why are known teams not applying via the K-9 TAC. Deana will be or has already sent a survey out as to this unknown.

### OPATA database report

This was reviewed and it was decided that the following was NOT to be included:

Names of people or dogs

Expiration dates

What is needed:

Agency

Type of dog (i.e. specialty) not the description of the special purpose (i.e. type of narcotic).

Agency contact number is preferred vs. private number

County

It was stated that all K-9 members not already members of the Child Abduction Response Team (CART) should think about joining this group.

### **III. Reviewed and approved applications:**

Updated app: Sheri Johnson for Paladin for Cadaver-Land
