**MISSION AREA**

Response

**FUNCTIONAL AREAS**

- Extended attack firefighting
- Initial attack firefighting
- Specialized firefighting
- Structural firefighting
- Wildland firefighting

**EXAMPLE WORDING**

The Buckeye County fire chiefs coordinate fire and EMS resources from the Buckeye County Emergency Operations Center (large-scale incidents) and the site of the incident.

Buckeye County first responders complete appropriate Incident Command System training courses and activate the ICS as required by the National Incident Management System (NIMS).

Local fire chiefs initiate mutual aid between fire and EMS according to the procedures in the statewide Fire Response Plan.

---

Examples demonstrate options to consider and are provided for training purposes only. The examples are intended to demonstrate how planning teams may incorporate the key tasks found on FEMA’s Core Capability Development Sheets into planning documents (e.g. the Emergency Operations Plan, Mitigation Plan, Debris Management Plan, HazMat Plan, and so forth). The items in the Functional Areas section are FEMA-identified areas where gaps could exist for the associated core capability. Counties should not re-design their Emergency Operations Plans around the Core Capabilities; stakeholders should integrate the capabilities within the EOP and in a format that is effective for the jurisdiction.
