ON-SCENE SECURITY, PROTECTION, AND LAW ENFORCEMENT

Ensure a safe and secure environment through law enforcement and related security and protection operations for people and communities located within affected areas and also for response personnel engaged in lifesaving and life-sustaining operations.

MISSION AREA

Response

FUNCTIONAL AREAS

• Law enforcement
• Protecting response personnel
• Securing disaster areas

EXAMPLE WORDING

Local law enforcement secures evacuated areas, including safeguarding critical facilities and shelters, and controls entry and exit to the disaster area as required.

Local law enforcement assists in planning and return of evacuees to the affected area and ongoing protection of response personnel during response and recovery phases.

Examples demonstrate options to consider and are provided for training purposes only. The examples are intended to demonstrate how planning teams may incorporate the key tasks found on FEMA’s Core Capability Development Sheets into planning documents (e.g. the Emergency Operations Plan, Mitigation Plan, Debris Management Plan, HazMat Plan, and so forth). The items in the Functional Areas section are FEMA-identified areas where gaps could exist for the associated core capability.

Counties should not re-design their Emergency Operations Plans around the Core Capabilities; stakeholders should integrate the capabilities within the EOP and in a format that is effective for the jurisdiction.
