PLANNING

Conduct a systematic process engaging the whole community as appropriate in the development of executable strategic, operational, and/or tactical-level approaches to meet defined objectives.

MISSION AREA

All

FUNCTIONAL AREAS

- Continuity planning
- Evaluating and updating plans
- Including individuals with disabilities or access/functional needs
- Incorporating risk analyses
- Integrating different plans
- Operational planning
- Pre-incident planning
- Strategic planning
- Whole community involvement and coordination

EXAMPLE WORDING

Buckeye County EMA coordinates an annual planning workshop to review, evaluate and update selected portions of the Emergency Operations Plan and discuss the continued integration of plans for the responding organizations. The plans and associated documents identify personnel, equipment, facilities, supplies, and other resources available within the jurisdiction or by mutual aid with other jurisdictions for use during response and recovery operations.

Buckeye County first responders activate the ICS as required by the National Incident Management System (NIMS) for operational planning (during an incident) or to conduct pre-incident planning (for planned events that may affect the jurisdiction).

MAY BE FOUND IN:
- Continuity of Operations/Continuity of Government Plans
- Mitigation Plan - Threat and Hazard Risk Assessment
- EOC Operations
- Basic Plan
- All Functions and Annexes

BUILDING CAPABILITY

Examples demonstrate options to consider and are provided for training purposes only. The examples are intended to demonstrate how planning teams may incorporate the key tasks found on FEMA’s Core Capability Development Sheets into planning documents (e.g. the Emergency Operations Plan, Mitigation Plan, Debris Management Plan, HazMat Plan, and so forth). The items in the Functional Areas section are FEMA-identified areas where gaps could exist for the associated core capability.

Counties should not re-design their Emergency Operations Plans around the Core Capabilities; stakeholders should integrate the capabilities within the EOP and in a format that is effective for the jurisdiction.
