Introduction

The State Homeland Security Program-Law Enforcement (SHSP-LE) is a core homeland security assistance program that provides funds to build capabilities at the state and local levels through planning, equipment, training, and exercise activities and to implement the goals and objectives included in the State Investment Justification and the State Homeland Security Strategy, and to fill gaps identified in Ohio’s THIRA/SPR. Funding continues to support the six mission areas of homeland security to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and align with the U.S. Department of Homeland Security’s (DHS) National Priorities, National Preparedness System and the Core Capabilities, as they relate to terrorism prevention in Ohio. Amongst these preparedness tools, DHS has built a process that gives DHS, the State of Ohio, and its local jurisdictions a benchmark from which to determine:

- How prepared we are now?
- How prepared we need to be?
- How we will prioritize each year to fulfill those capability gaps?

Federal Grant Guidance stipulates that a minimum of 25% of the total SHSP-LE must be allocated to law enforcement use. The federal fiscal year FY2019 State Homeland Security Program – Law Enforcement (SHSP-LE) grant consists of 30% of the FY2019 overall Ohio SHSP award and provides funding for Planning, Equipment, Training, Exercises and limited Organizational costs focusing on providing resources to law enforcement and public safety communities (working with their private partners) to support critical terrorism prevention activities. Federal funding allocations are based, in part, on the effectiveness of state and local agencies to address unmet preparedness capabilities over time. Those needs are identified in the State of Ohio Homeland Security Strategy, Threat and Hazard Identification and Risk Assessment (THIRA) Stakeholder Preparedness Review (SPR), and the FY2019 HSGP Investment Justification.

The purpose of this package is to provide an overview of the FY2019 SHSP-LE, as well as the grant guidance and application materials needed to apply for funding under the program. The package outlines both federal and state requirements for the application. The Ohio Emergency Management Agency (Ohio EMA) serves as the State Administrative Agency (SAA) and is responsible for administering the use of SHSP-LE grant funds, but will continue to coordinate with Ohio Homeland Security (OHS) regarding program implementation.
Key Changes

Federal Changes

Cybersecurity Assessment
FY2019 recipients and subrecipients will be required to complete the Nationwide Cybersecurity Review (NCSR), which is open annually from October to December, by the end of calendar year 2019 in order for agencies to benchmark and measure progress of improving their cybersecurity posture. The Chief Information Officer (CIO), Chief Information Security Officer (CISO), or equivalent for each recipient and subrecipient is required to complete the NCSR. If there is no CIO or CISO, the most senior cybersecurity professional is required to complete the assessment.

State Changes

Performance Period
The FY2019 SHSP Performance Period will be from September 1, 2019 to December 31, 2021. This is a reduction of three months from previous grant years to allow time for re-allocation of de-obligated funds.

Procurement
For FY2019, Ohio EMA will institute a more comprehensive procurement process that will ensure compliance with federal, state, and local requirements. Please go to page 25 of this guidance document for further details.

Waiver Process
Ohio EMA has developed a waiver process to request approval from FEMA for manned and unmanned watercraft and aircraft (i.e. drones).

Travel
Subrecipients will generally be limited to 3 personnel per agency per training or conference. Additional personnel will require prior approval by Ohio EMA Grants Branch.

Budget Modifications
All budget modifications will require prior approval from Ohio EMA Grants Specialists prior to incurring expenses. Modifications will need to be entered into EGMS and approved prior to obligating grant funds. Any budget modification made after the purchase of equipment or services will not be reimbursed.
Award Information

Issued By
Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA), Grants Program Directorate (GPD) through Ohio Emergency Management Agency as the State Administrative Agency (SAA)

Assistance Listings (AL) Number and Title:
97.067 - Homeland Security Grant Program

Authorizing Authority for Program

Appropriation Authority for Program

Period of Performance
The period of performance of this grant will be September 1, 2019 through December 31, 2021. Applications should clearly address how actions will be completed within the timeframe allowed by this guidance. Applicants should be aware that as of December 31, 2021, all activities associated with the 2019 SHSP-LE program must be complete and all equipment purchased with the grant must be received, installed, and in service and cash requests submitted.

Extension of the Performance Period
It is highly unlikely that extensions to the performance period stated above will be granted by the State Administrative Agency (SAA), which is the Executive Director of Ohio EMA. The sub-recipient asking for the extension will need to demonstrate something truly beyond the control of the sub-recipient in order to be considered for the extension. Sub-recipients should consider the unlikely event of an extension when planning project timelines and when doing bids for projects. Federal Procurement guidelines cannot be avoided based on grant timelines.

FY2019 HSGP Funding
As required by the Homeland Security Act of 2002 (Public Law 107–296), Title XX, § 2006, as amended by the 9/11 Act, Title I, §101, August 3, 2007, 121 Stat. 280, 6 U.S.C. § 607, Ohio is required to ensure that at least 25% of funding is dedicated to law enforcement terrorism prevention activities. This requirement has been met by dedicating funding to Ohio’s LE-SHSP-LE program to be administered through a separate process. As the SAA, Ohio EMA is required to obligate at least 80% of funds to local units of government.
Program Overview

State Investment Strategy
The SHSP-LE is an important part of Ohio’s larger, coordinated effort to strengthen homeland security preparedness and terrorism prevention. The SHSP-LE will implement objectives addressed in Ohio’s FY2019 Investment Justification. As the State Administering Agency, the Ohio EMA expects our State, local and private partners to be familiar with the state preparedness architecture and to incorporate elements of this architecture into their counter-terrorism planning, operations and capability-building efforts.

Successful regional collaboration allows for a multi-jurisdictional and multidisciplinary approach to building capacities, spreading costs, and mitigating risk across geographic areas. As federal homeland security funds become more competitive, agencies should be diligently working with their neighboring and regional jurisdictions to better coordinate homeland security expenditures and planning efforts to avoid duplicative or inconsistent investments. Thus, agencies must determine what levels of preparedness they can realistically develop and sustain over the long-term without continued reliance on federal funding.

To accomplish this, agencies should already be using the Threat and Hazard Identification and Risk Assessment (THIRA), Stakeholder Preparedness Review (SPR), and Core Capabilities List to review their current readiness. The Ohio Homeland Security Strategic Plan identifies the goals and objectives needed to address and meet Ohio’s priorities.

Each Project must explain how the proposed activity will support the applicant’s efforts to:
- Prevent a threatened or an actual act of terrorism;
- Prepare for all hazards and threats, while explaining the nexus to terrorism preparedness;
- Protect citizens, residents, visitors, and assets against the greatest threats and hazards, relating to acts of terrorism; and/or
- Respond quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of an act of terrorism or other catastrophic incident.

Based upon ongoing intelligence analysis, capability review and assessment, Ohio will continue to focus available grant funding on investments to build risk-based capabilities where a nexus to terrorism exists. Ohio’s FY2019 Regional SHSP-LE terrorism prevention investment area is as follows:

Enhance Intelligence Fusion and Information Sharing Capabilities
The focus for Ohio’s FY2019 SHSP-LE continues to be support for the maturation of the Information Sharing Environment (ISE), and specifically, the continued enhancement of State and Major Urban Area fusion centers to include support for implementation of the Nationwide Suspicious Activity Reporting (SAR) Initiative (NSI). These centers provide an important linkage between local, State, tribal, regional, and Federal partners, as well as private industry, and as part of a national information sharing capability must establish and maintain the capacity to receive threat-related information, understand its implications locally and further disseminate it to other local, State, tribal, and private sector entities. At the same time, State and Major Urban Area fusion centers need to be able to aggregate, blend, and analyze information gathered from local law enforcement and share that information with Federal authorities. Allowable expenditures of funding include support for equipment and consultation necessary
to enable connection to information sharing systems such as the National Data Exchange (NDex), the Nationwide SAR Initiative, and supporting program areas.

Fusion centers are a critical component of our State’s distributed homeland security and counterterrorism architecture. They provide grassroots intelligence and analytic capabilities within the state and local jurisdictions (http://www.dhs.gov/state-and-major-urban-area-fusion-centers). To that end, the SHSP-LE will continue to support designated state and major Urban Area centers (http://www.dhs.gov/fusion-center-locations-and-contact-information) and the maturation of the Information Sharing Environment (ISE).

Participating in the Nationwide SAR Initiative (NSI) enables fusion centers to receive and analyze suspicious activity reporting from frontline public safety personnel, the private sector, and the public, and ensure the sharing of SAR with the Federal Bureau of Investigation’s Joint Terrorism Task Forces (JTTF) for further investigation.

In support of this strategic vision, the U.S. DHS/FEMA requires designated State and Major Urban Area fusion centers to participate in an annual assessment of their achievement of Critical Operational Capabilities (COCs) and Enabling Capabilities (ECs).

Maturation of the Ohio Fusion Center Network continues to be a high priority for the FY2019 SHSP-LE.

Regions with fusion centers receiving SHSP-LE grant funds will be evaluated based on compliance with the guidance and requirements for the National Network as set forth by DHS Intelligence and Analysis (I&A) through the annual Fusion Center Assessment Program.

- FY 2019 Fusion Center Grant requirements are listed at http://www.dhs.gov/homeland-security-grant-program-hsgp.
- DHS/FEMA approved analyst courses that meet the grant requirement are listed at http://www.dhs.gov/fema-approved-intelligence-analyst-training-courses.

Through the Performance Progress Report (SF-PPR), fusion centers will report on the achievement of capabilities and compliance with measurement requirements within the Maturation and Enhancement of State and Major Urban Area fusion centers priority through the annual Fusion Center Assessment Program managed by DHS I&A and reported to FEMA. (This process is subject to change by U.S. DHS I&A)

In support of these efforts, Ohio EMA and Homeland Security (OHS) are encouraging the Regional/Major Urban Area fusion centers to prioritize the allocation of LE SHSP-LE grant funding to meet and maintain identified levels baseline capabilities, as outlined in the Global Justice Information Sharing Initiative’s (Global) Baseline Capabilities for State and Major Urban Area Fusion Centers.

Additionally, fusion centers should assess their achievement of the baseline capabilities, so they may identify any resulting gaps. Requested LE SHSP-LE grants funds should then be prioritized to target and address these gaps, and the results of this gap analysis should be included in grant applications for any fusion center funding. All efforts should be made to address gaps that are identified by taking advantage of the service deliveries made available through the joint US DHS and Department of Justice Fusion (DOJ) Process Technical Assistance Program. All fusion center employees are expected to complete the online 28 CFR Part 23 certification training made available through this program.
FY2019 SHSP-LE grant funds may not be used to support fusion center-related initiatives unless the fusion center is able to certify that privacy and civil rights/civil liberties (CR/CL) protections are in place that are determined to be at least as comprehensive as the Information Sharing Environment (ISE) Privacy Guidelines by the ISE Privacy Guidelines Committee (PGC) within 6 months of the award date on this FY2019 award. If these protections have not been submitted for review and on file with the ISE PGC, LE SHSP-LE grants funds may only be leveraged to support the development and/or completion of the fusion center’s privacy protections requirements.

In order to effectively measure implementation of this priority, designated Major Urban Area fusion centers leveraging SHSP-LE grant funds will be evaluated based upon compliance with the following set of requirements. These requirements are tracked for all primary or recognized fusion centers through the 2019 Fusion Center Assessment.

1. Successful completion of the annual Fusion Center Assessment Program managed by the DHS I&A. The Fusion Center Assessment Program evaluates each fusion center against the Critical Operational Capabilities (COC) and Enabling Capabilities (EC) and is comprised of the self-assessment questions, staffing, product, and cost assessment data tables, and validation (this process is subject to change by U.S. DHS I&A)
2. Maintain approved plans, policies, or SOPs and, per the Fusion Center Assessment Program, and, when applicable, demonstrate improvement in each of the four COCs
3. Develop and implement privacy, civil rights, and civil liberties (P/CRCL) protections, including:
   a. Maintaining an approved P/CRCL policy that is determined to be at least as comprehensive as the ISE Privacy Guidelines
   b. Ensuring the approved P/CRCL policy is publicly available
   c. Conducting a compliance review of their P/CRCL policy in accordance with the Privacy Civil Rights and Civil Liberties Compliance Verification for the Intelligence Enterprise
   d. Ensuring there is a process in place for addressing and adjudicating complaints alleging violations of P/CRCL
   e. Ensuring all analytic products (as defined by the annual assessment process) are reviewed for P/CRCL issues prior to dissemination
   f. Ensuring all staff receive annual training on the center’s P/CRCL policies
   g. Ensure all staff are trained on 28 CFR Part 23
   h. Ensure all Federally funded criminal intelligence databases comply with 28 CFR Part 23
4. All fusion center analytic personnel must meet designated competencies, as identified in the Common Competencies for State, Local, and Tribal Intelligence Analysts, that have been acquired through experience or approved training courses within six months of hire.
5. Successfully complete an exercise to evaluate the implementation of the COCs at least once every two years and address any corrective actions arising from the successfully completed exercises within the timeframe identified in the each exercise’s After Action Report (AAR)
6. Post 100 percent (100%) of distributable analytic products (as defined by the annual assessment process) to the Homeland Security Information Network – Intelligence (HSIN-Intel) as well as any other applicable portals, such as Law Enforcement Enterprise Portal (LEEP), Regional Information Sharing Systems (RISS), their agency portal, etc.
7. Ensure all analytic products are tagged to Homeland Security Standing Information Needs (HSEC SINs).
State and local LE SHSP-LE applications must align with terrorism prevention investment area of “Enhancing Intelligence Fusion and Information Sharing Capabilities” to be eligible for funding.

**FY2019 SHSP-LE Regional Process**

**Eligible Applicants**
Only applicants who are designated representatives of a homeland security Regional Law Enforcement Advisory Group are eligible to apply for FY2019 SHSP-LE funding.

The FY2019 SHSP-LE funds will be distributed for projects that are regionally-based and developed by Regional Law Enforcement Advisory Groups. These groups are essential to the funding process, as they allow for collaborative planning and resource distribution throughout the state. The Advisory Groups are based in the eight (8) Homeland Security Planning Regions.

Membership for the Regional Law Enforcement Advisory Groups include, at minimum:
- Three (3) police chiefs – from within the largest and smallest counties and one mid-sized county
- Three (3) county sheriffs – representing the largest and smallest counties and one mid-sized county
- One (1) university law enforcement representative (where applicable)
- One (1) representative from a criminal justice services agency (where applicable)
- One (1) representative from a terrorism early warning group or fusion center (where applicable)

The Regional Law Enforcement Advisory Group will come to a consensus on the projects for which the region will be applying and will submit the list of projects to Ohio EMA Grants Branch with a signed copy of the Regional Project Sign-Off form that includes signatures from all members of the Regional Law Enforcement Advisory Group.

All regional applicants must have a single organization, or sub-grantee, that will serve as the fiscal agent and assume overall responsibility for the grant. Eligible sub-grantees are units of local government or council of governments as defined below:
- A unit of local government has legislative autonomy, jurisdiction, and authority to act in certain circumstances. Units of government include a city, county, township, or village. If two or more jointly apply, they must designate one body to take the lead role and identify that agency's fiscal officer.

Regional proposals will be accepted on behalf of each Homeland Security region. All law enforcement agencies within a region receiving funds or other benefits through the SHSP-LE must be in compliance with crime statistics reporting, using either the Ohio Incident-Based Reporting System or Uniform Crime Reporting, per Ohio Revised Code Section §5502.62(C)(6) and be NIMS Compliant.

Furthermore, agencies receiving funding should designate an individual to serve as the agency’s point of contact to maintain a Communication and Information Management System (CIMS) account and check it regularly in order to relay timely information to appropriate partners.
A current listing of the Regional Law Enforcement Advisory Group’s membership, programmatic agent, and fiscal agent must be submitted with the application in order to be eligible for funding. This information must be maintained with Ohio EMA throughout the grant period in order to continue to remain eligible for funding.

**Cybersecurity Assessment**

New for FY2019, subrecipients will be required to complete the Nationwide Cybersecurity Review (NCSR) by December 31, 2019. The Chief Information Officer (CIO), Chief Information Security Officer (CISO), or equivalent for each subrecipient is required to complete the NCSR. If there is no CIO or CISO, the most senior cybersecurity professional is required to complete the assessment. Additional guidance will be forthcoming from FEMA.

**NIMS Compliance**

Grantees and sub-recipients receiving HSGP funding are required to implement the National Incident Management System (NIMS). Grantees must utilize standardized resource management concepts such as typing, inventorying, organizing, and tracking resources that facilitates the identification, dispatch, deployment, and recovery of their resources. In order to receive funding, the Fiscal Agent is required to certify as part of their grant application that they are addressing and/or have met the most current NIMS requirements. Any agency benefiting from funds must be NIMS compliant. A link to the mandatory NIMS Certification form, additional information about NIMS compliance, and resources for achieving compliance can be found at Ohio EMA NIMS website [http://www.ema.ohio.gov/NimsGuidance.aspx](http://www.ema.ohio.gov/NimsGuidance.aspx) or the NIMS Integration Center web page: [http://www.fema.gov/national-incident-management-system](http://www.fema.gov/national-incident-management-system). Evidence of compliance with these requirements must be made available, upon request, to Ohio EMA. Failure to do so may result in suspended or terminated funding.
FY2019 SHSP-LE Regional Allocations

As outlined below, the FY2019 SHSP-LE allocations are set aside for each region. These award allocations were determined by a methodology based on population and critical infrastructure vulnerability and include a base award amount.

Investment Areas and Funding Priorities

Ohio’s FY2019 Investment Justification outlined the initiatives that will be accomplished and thus funded via the FY2019 SHSP-LE. As per federal restrictions, no LE SHSP-LE applications written outside of the scope identified in the State Investment Justification will be funded.

To be eligible for Ohio’s FY2019 SHSP-LE funding, regional project applications must directly align with the following seven (7) state terrorism prevention priorities outlined below. Please note that Priority #4 should remain of paramount concern as the grant awards totals continue to decrease. Please ensure that your region is aware of grant obligations, ongoing costs such as maintenance agreements and, as well as grant performance periods of each fiscal year.

- Information Sharing and Intelligence Fusion
- Regional Terrorism Information Program (this priority includes the Intelligence Liaison Officers & Regional Information Coordinators)
- Early Identification Technology
- Project Planning, Training, Communications & Sustainability
- Chemical, Biological, Radiological, Nuclear and Explosive (CBRNE) Equipment
- Countering Violent Extremism
- Physical Protection Measures

Applicants must describe how their project relates to one or more priorities and directly aligns with an investment milestone summarized in the list below.

Information Sharing and Intelligence Fusion

Strengthen information sharing, collection, fusion, and analysis statewide by integrating existing electronic information sharing systems and providing for real-time submission of suspicious activity reports to regional terrorism early warning groups, regional fusion centers, and the Statewide Terrorism Analysis and Crime Center (STACC).

- Complete the strategy leveraging the existing plans of stakeholders.
- Complete or expand a NIEM-compliant electronic Suspicious Activity Reporting (SAR) system aligned with the national SAR effort, to include a statewide solution to report suspicious LE field contacts (FI contacts).
- Manage and Support a criminal intelligence database to integrate intelligence from agencies across Ohio in one location for statewide queries.
- Implement cyber and physical solutions to integrate existing information/intelligence systems.
- Purchase new (or expand existing) electronic platforms and equipment to expand state and local fusion centers.
- Integrate GIS, video and acoustic sensor platforms, including public and private surveillance systems, into fusion centers and EOCs within bounds of privacy policies.
- Fusion Center Personnel (planning, outreach and training) and Equipment Sustainment.

Regional Terrorism Information Program

Develop a multi-disciplined regional terrorism information program to share information and intelligence horizontally and vertically.
• Provide continuing education for regional terrorism information programs to inform and deploy multi-disciplinary intelligence liaisons in every county.
• Terrorism information programs can include planning conferences and workshops, public outreach, and specific courses to incorporate terrorism awareness and SAR reporting.

Early Identification Technology
Develop statewide early identification capabilities that enable law enforcement officers and other criminal justice stakeholders to detect threats at the earliest possible stage.
• Deploy early identification equipment (biometric identification equipment, UAVs, robot surveillance equipment, license plate readers, etc.) and mobile data equipment to LE agencies and other criminal justice entities.

Project Planning, Training, Communications & Sustainability
Conduct project planning and training for coordination of programs, communications, and sustainability of projects.
• Regional Law Enforcement Advisory Groups will hold planning summits to ensure the continued development, tactical interoperable communications, & sustainability of programs.

Chemical, Biological, Radiological, Nuclear and Explosive (CBRNE) Equipment
Build statewide risk-based CBRNE capabilities.
• Under FEMA guidelines, deploy CBRNE equipment for regional response teams.
• Complete CBRNE gap analysis and implement plan to coordinate/build-out the regional CBRNE capability.
• Please note that all equipment purchased under this priority must follow FEMA guidelines and must demonstrate a nexus to intelligence and information sharing (e.g. requesting agency participation in the ILO program, etc.)

Countering Violent Extremism
Provide training to law enforcement personnel on countering violent extremism.
• Develop and promote terrorism awareness training, workshops, and conferences for law enforcement personnel, including dispatchers, on potential behaviors and indicators of violent extremism and how to appropriately analyze and report them; officer engagement and partnership with diverse communities; and intervention strategies.

Physical Protection Measures
Strengthen the capability to protect public and private entities to include the 16 Infrastructure Protection sectors, Key Resources, and target groups.
• Deploy physical protection equipment (e.g. - barriers, fences, jersey walls, access control systems, etc.), to include transportation of allowable equipment (i.e. trailer).
• Planning, training, support (to include operational overtime), and risk assessments.
• Physical protective measures should be mobile and include plans for regional caches.

All SHSP-LE projects must be pre-approved by Ohio EMA and be aligned with the following plans, assessments, and/or guidance:
• Ohio’s FY2019 Investment Justification
• Ohio’s Threat and Hazard Identification and Risk Assessment (THIRA)
• Ohio’s Stakeholder Preparedness Review (SPR)
• State of Ohio Homeland Security Strategic Plan
• National Preparedness System Core Capabilities
• National Incident Management System (NIMS)
• National Response Framework (NRF)

Recipients investing in emergency communications projects must describe how activities align to the Ohio Statewide Communications Interoperability Plan (SCIP). Recipients must coordinate with the Statewide Interoperability Coordinator (SWIC) and/or Statewide Interoperability Governing Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems.
Funding Guidelines

The allowable costs under the FY2019 SHSP-LE grant are divided into five program categories: Planning, Organization, Equipment, Training, and Exercises. Activities implemented under the FY2019 SHSP-LE must support terrorism preparedness by building or enhancing capabilities that relate to the prevention of and protection against terrorism in order to be considered eligible.

Multiple Purpose or Dual-Use of Funds

Many activities that support the achievement of core capabilities related to terrorism preparedness may simultaneously support enhanced preparedness for other hazards unrelated to acts of terrorism. However, all SHSP-funded projects must assist recipients and subrecipients in achieving core capabilities related to preventing, preparing for, protecting against, or responding to acts of terrorism.

The following outlines the basic allowable costs under the FY2019 SHSP-LE eligible program categories:

Planning

FY2019 SHSP-LE funds may be used for a range of law enforcement terrorism prevention planning activities to include: information sharing and analysis, threat recognition, and terrorist interdiction.

Planning Activities

There are five broad categories of allowable planning costs.

- Developing scenario plans that incorporate law enforcement prevention activities in the scenario
- Developing and implementing homeland security support programs and adopting DHS national initiatives
- Developing related terrorism prevention activities
- Developing and enhancing plans and protocols
- Developing or conducting assessments

Additional SHSP-LE Allowable Planning Costs

- Hiring of full- or part-time staff or contract/consultants to assist with planning activities (not for the purpose of hiring public safety personnel fulfilling traditional public safety duties)
- Conferences to facilitate planning activities
- Materials required to conduct planning activities (applicants must be specific about actual material being purchased, how they are going to be utilized, and how it ties to an investment milestone)
- Travel/per diem related to planning activities
- Overtime and backfill costs (in accordance with operational Cost Guidance)

Planning funds cannot be used for the purpose of hiring public safety (fire, EMS, law enforcement) personnel who will also fulfill traditional public safety duties. These funds cannot supplant existing budgets for these planning activities. In no case is dual compensation allowable. No more than 35% of the region’s total SHSP-LE award can be allocated toward personnel costs. These costs include employees, contractors, overtime, and backfill.
You will be required during a monitoring visit to validate the work was completed as per the budget. Failure to do so may result in forfeiture or repayment of grant funds. Further, all publications created with FY2019 SHSP-LE funding shall prominently contain the following statement: “This document was prepared under a grant from the U.S. Department of Homeland Security (DHS). Points of view or opinions expressed in this document are those of the authors and do not necessarily represent the official position or policies of the U.S. DHS.”

Organizational
FY2019 SHSP-LE funds may be used only for the following organizational activities.

Organizational activities include:
- Structures and mechanisms for information sharing between the public and private sector
- Implementing models, programs, and workforce enhancement initiatives to address ideologically-inspired radicalization to violence in the homeland
- Tools, resources and activities that facilitate shared situational awareness between the public and private sectors
- Operational Support
- Responding to an increase in the threat level under the National Terrorism Advisory System (NTAS), or needs in resulting from a National Special Security Event
- Paying salaries and benefits for personnel to serve as qualified intelligence analysts

Intelligence analysts - Per the Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act (Public Law 110-412), SHSP-LE funds may be used to hire new staff and/or contractor positions to serve as intelligence analysts to enable information/intelligence sharing capabilities, as well as support existing intelligence analysts previously covered by SHSP-LE or Urban Area Security Initiative (UASI) funding. In order to be hired as an intelligence analyst, staff and/or contractor personnel must meet at least one of the following criteria:
  - Successfully complete training to ensure baseline proficiency in intelligence analysis and production within six months of being hired; and/or,
  - Previously served as an intelligence analyst for a minimum of two years either in a Federal intelligence agency, the military, or State and/or local law enforcement intelligence unit

As identified in the Maturation and Enhancement of State and Major Urban Area Fusion Centers priority, all fusion centers analytic personnel must demonstrate qualifications that meet or exceed competencies identified in the Common Competencies for State, Local, and Tribal Intelligence Analysts, which outlines the minimum categories of training needed for intelligence analysts. A certificate of completion of such training must be on file with the SAA and must be made available to FEMA Program Analysts upon request. In addition to these training requirements, fusion centers should also continue to mature their analytic capabilities by addressing shortfalls in analytic capability identified during the fusion center’s annual assessment.

Overtime Costs
Overtime costs are allowable for personnel to participate in information, investigative, and intelligence sharing activities specifically related to homeland security and specifically requested by a Federal agency. Allowable costs are limited to overtime associated with federally requested participation in eligible fusion activities including anti-terrorism task forces, Joint Terrorism Task Forces (JTTFs), Area Maritime Security Committees (as required by the Maritime Transportation Security Act of 2002), DHS Border Enforcement
Security Task Forces, and Integrated Border Enforcement Teams. Grant funding can only be used in proportion to the Federal man-hour estimate, and only after funding for these activities from other Federal sources (i.e., FBI JTTF payments to State and local agencies) has been exhausted. Under no circumstances should DHS/FEMA grant funding be used to pay for costs already supported by funding from another Federal source. These costs must be pre-approved through Ohio EMA and FEMA. See below.

Operational Overtime Costs
In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism, operational overtime costs are allowable for increased security measures at critical infrastructure sites. FY2019 SHSP-LE funds for organizational costs may be used to support select operational expenses associated with increased security measures at critical infrastructure sites in the following authorized categories:

- Increased border security activities in coordination with Customs and Border Patrol
- Backfill and overtime expenses for staffing State or Major Urban Area fusion centers

FY2019 SHSP-LE funds may only be spent for operational overtime costs upon prior approval provided in writing (email or memorandum) from the Ohio EMA.

Personnel Costs
In order for Ohio to meet the requirements of the Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act (Public Law 110-412), all regional personnel and personnel-related costs are allowed up to 35% of FY2019 SHSP-LE without time limitation placed on the period of time that such personnel can serve under the grant. These guidelines are not retroactive to previous fiscal years of HSGP funding.

In general, the use of SHSP-LE grant funding to pay for staff and/or contractor regular time or overtime/backfill is considered a personnel cost. Activities that are considered “personnel” and “personnel-related”, and therefore count against the personnel cap of 35% include, but are not limited to:

- Operational overtime
- Overtime/backfill to participate in approved training or exercise deliveries
- Overtime to participate in intelligence sharing activities
- Salaries and personnel costs of planners, equipment managers, exercise coordinators, and/or training coordinators
- Salaries and personnel costs under the M&A category
- Contractor costs associated with performing the above activities
- These activities are also subject to the funding and eligibility requirements detailed under the allowable cost categories. For further details, applicants should contact their Ohio EMA grants coordinator.

Hiring
Agencies/departments who will undertake approved and budgeted FY2019 SHSP-LE grant program activities may hire new personnel to complete those tasks. This may also include personnel expenses incurred where new personnel are hired to fulfill functions and duties as a result of existing personnel
being reassigned full-time to perform approved and budgeted FY2019 SHSP-LE grant program activities. This does not include new personnel who are hired to fulfill any non-approved and locally budgeted SHSP-LE program activities under any circumstances. In either case, the hiring of personnel will result in an increase of Full-Time Equivalent (FTE) positions, but cannot result in an increase in the number of FTE positions performing normal operational duties.

**Overtime**

These are expenses incurred by personnel who are performing approved and budgeted FY2019 SHSP-LE grant program activities over and above their normal, scheduled work hours or work week as a direct result of their performance of approved activities specified in this guidance. Overtime associated with any other activity is not eligible. To avoid problems arising from overtime or its related payroll regulations, arrangements to pay these costs must first be coordinated between the Regional Law Enforcement Advisory Group and the agencies/departments who expect to incur qualifying overtime costs for their personnel who will incur planning, training, or administrative costs. Budgeting or paying for overtime costs will not result in an increase of full-time employees (FTEs). Overtime payments are allowed only to the extent that:

- The cost was pre-approved by the Advisory Group and is reflected on the region’s currently approved budget worksheet for planning, training, and/or administration costs;
- The compensation must be reasonable and consistent with that paid for similar work in other activities of local government;
- The payment for such services is in accordance with the policies of the local unit(s) of government; and
- The time and/or services used to accomplish a specific program activity are supported by adequate documentation of the costs.

**Backfill**

Backfill-related overtime. Also called “Overtime as Backfill,” these expenses are limited to overtime costs which result from personnel who are working overtime (as identified above) to perform the duties of other personnel who are temporarily assigned to FEMA-approved activities outside their core responsibilities. Neither overtime nor backfill expenses are the result of an increase of FTE employees.

**Supplanting**

Grant funds will be used to supplement existing funds, and will not replace (supplant) funds that have been appropriated for the same purpose. Applicants or grantees may be required to supply documentation certifying that a reduction in non-Federal or State resources occurred for reasons other than the receipt or expected receipt of SHSP-LE funds.

Supplanting is defined as replacing a current State and/or locally budgeted position with one or more full-time employees or contractors supported in whole or in part with Federal funds and is prohibited.

FY2019 SHSP-LE grant funds may not be used to support the hiring of sworn public safety officers for the purposes of fulfilling traditional public safety duties or to supplant traditional public safety positions and responsibilities.

Positions created and/or funded through FY2004-FY2007 LETPP and FY2008-FY2018 SHSP-LE grants may continue to be supported with FY2019 SHSP-LE funding provided that the position is dedicated to the
same or similar purposes allowable under applicable grant program guidance and has not been paid with local funds in the past.

**Equipment**

FY2019 SHSP-LE funds can be used for the acquisition of equipment from the eligible equipment categories listed in the FY2019 Authorized Equipment List (AEL) as they pertain to the State priorities. The AEL is only available online through the FEMA website at [https://www.fema.gov/authorized-equipment-list](https://www.fema.gov/authorized-equipment-list). Please note that the AEL is routinely updated and thus must be consulted each time decisions are to be made on what equipment to be purchased. The Regional Law Enforcement Advisory Committee must consult the AEL in order to develop its Project/Budget application.

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable, as described in FEMA Policy FP 205-402-125-1 ([http://www.fema.gov/media-library/assets/documents/32474](http://www.fema.gov/media-library/assets/documents/32474)) under all active and future grant awards, unless otherwise noted. With the exception of basic maintenance plans purchased incidental to the original purchase of the equipment, the period covered by a maintenance or warranty plan, or any activities and expenditures must not exceed the period of performance of the specific grant to which the expenditure is charged. All costs that are incurred before or after the award’s period of performance ends are not chargeable to the award and will be disallowed per 2 CFR 200.309 Period of Performance. Contracts, agreements, and extended warranty shall not be prepaid or prorated.

All equipment and services must be received, completed, and the request for reimbursement submitted by end of the grant performance period as listed on the sub-recipient’s grant agreement.

Before any equipment item is added to the regional budget, the applicant must first confirm the item conforms to a specific AEL equipment item. Some items that regions wish to purchase may not exactly match a specific item in the AEL. In those cases, the region must consult Ohio EMA’s Preparedness Grants Branch to determine whether or not the item meets the intent and restrictions of a given AEL equipment category/item. If Ohio EMA cannot concur or determine the eligibility of the item, they will consult with DHS to confirm eligibility of the item. The region must receive approval for the item in writing (email or memorandum) from Ohio EMA’s Grants Branch. This clarification must take place prior to any encumbrance or expenditure of funds for the item in question. EGM is the official approval of expenditures.

The region will not consult DHS independently of Ohio EMA on an item’s eligibility, which must be coordinated thru Ohio EMA’s Grants Branch. Equipment item decisions made by Ohio EMA and DHS are not subject to appeal.

**CBRNE Detection Equipment**

Any CBRNE detection equipment purchases must be made in direct support of a law enforcement agency and must demonstrate a nexus to intelligence and information sharing (e.g. Bomb Squad members being trained as ILOs, etc.). Ohio Homeland Security (OHS) will submit all regional CBRNE equipment requests to the appropriate statewide Technical Advisory Committee (TAC) (or comparable subject matter experts) for review and approval. This will help to support coordination with other regions and avoid duplication of efforts within the region. It is only after this process that equipment will be approved for purchase. The region must receive approval for the item in writing (email or memorandum) from Ohio EMA’s Grants Branch.
Branch. This approval must take place prior to any encumbrance or expenditure of funds for the item in question. The SHSP-LE grant is designed to build capabilities to prevent terrorism by sharing information and intelligence. It is focused on detecting terrorism before an act can be carried out. A limited amount of CBRNE response equipment may be allowed on a case-by-case basis and must be accompanied by a written justification that includes why the equipment cannot be purchased with another funding source.

Requirements for Small Unmanned Aircraft System and Watercraft
All manned and unmanned aircraft/watercraft require an approved waiver from FEMA. All requests to purchase Small Unmanned Aircraft Systems (SUAS) with FEMA grant funding must comply with IB 426 and IB 438 and also include a description of the policies and procedures in place to safeguard individuals’ privacy, civil rights, and civil liberties of the jurisdiction that will purchase, take title to or otherwise use the SUAS equipment.

Ohio EMA has developed a formal process for requesting a waiver from FEMA. Please utilize the Waiver Form (available via https://ema.ohio.gov/PreparednessGrants_Toolkit.aspx) and work with Ohio EMA Grants Branch staff to navigate the FEMA approval process. It is imperative that the subrecipient begin this process as early as possible to ensure completion within the performance period.

Training
Allowable training-related costs under this program include the establishment, support, conduct, and attendance of training courses pertinent to the capabilities outlined in the priorities.

Training conducted must also be in accordance with the FY2019 State Investment Justification. If you have questions regarding eligibility during the developmental stages of your training project proposal, please contact Ohio EMA Training staff (Lisa Jones, Training Officer, at 614-799-3824, David Nunley, Training & Exercise Supervisor, at 614-799-3677.

Allowable FY2019 SHSP-LE training activities as they pertain to the State Investment Justification include:
- Costs to develop, deliver, and evaluate training, to include costs related to administering the training; planning, scheduling, facilities, materials, and supplies, reproduction of materials, and equipment
- Overtime and backfill costs associated with attendance at DHS sponsored and/or approved training courses and programs
- Costs associated with the certification and recertification of instructors
- Travel costs (e.g. airfare, mileage, per diem, hotel) for personnel attending approved training
- Hiring of full or part-time staff or contractors/consultants. (Full or part time staff may be hired to support training-related activities. Payment of salaries and fringe benefits must be in accordance with the policies of the local government.)

Exercise
All exercise activities supported by FY2019 SHSP-LE must be US DHS Homeland Security Exercise and Evaluation Program (HSEEP) compliant and PRE-APPROVED by the Ohio EMA. Applicants must obtain approval in writing (email or memorandum) prior to encumbering any expenses. If you have questions regarding eligibility during the developmental stages of your exercise project proposal, please contact David Nunley, Training and Exercise Supervisor, at 614-799-3677 or via e-mail at Dbnunley@dps.ohio.gov.
**Allowable Exercise Costs**

- Funds used to design, develop, conduct and evaluate an exercise – Includes costs related to planning, meeting space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation.
- Hiring of full- or part-time staff or contractors/consultants – Full- or part-time staff may be hired to support exercise-related activities. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 35 percent of the total allocation. The applicant’s formal written procurement policy or the Federal Acquisition Regulations (FAR) – whichever is more stringent – must be followed. In no case is dual compensation allowable. As previously noted, all consultants/contractors, including their support staff (e.g., exercise planners, controllers, facilitators) that are utilized to develop, conduct, or evaluate exercises must have completed the FEMA Exercise Design and Evaluation Course and the HSEEP Training Course, as well as have a strong working knowledge of the National Exercise Schedule (NEXS) and Corrective Action Program (CAP) systems. A scope of work and contract detailing the job duties and deliverables for all consultants/contractors must be provided and approved by the Ohio EMA Training & Exercise Supervisor prior to finalizing any consultant/contractor agreements or contracts.
- Overtime and backfill costs – Overtime and backfill costs associated with the design, development, and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable.
- Travel - For expenses (e.g., airfare, mileage, per diem, and lodging) of employees on official business related to the planning and conduct of the exercise project(s).
- Supplies - Items that are expended or consumed during the course of the planning or conduct of the exercise project(s).
- Other items - Costs would include rental space/locations for exercise planning and conduct, rental of equipment, etc.

**Unallowable Expenses**

- Unauthorized Exercise Costs
- Unauthorized exercise-related costs include:
- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles), medical supplies, and emergency response apparatus (e.g., fire trucks, ambulances).
- Equipment that is purchased for permanent installation and/or use beyond the scope of exercise conduct (e.g., electronic messaging signs).
- Per FEMA policy, the purchase of weapons and weapons accessories, including ammunition, is not allowed with SHSP funds.
- Grant funds may not be used for the purchase of equipment not approved by DHS/FEMA. Grant funds must comply with [IB 426](#) and may not be used for the purchase of the following equipment: firearms; ammunition; grenade launchers; bayonets; or weaponized aircraft, vessels, or vehicles of any kind with weapons installed.
Grant Administration

The Grant Administration section is intended to help subrecipients in understanding the rules and regulations associated with administering federally-funded grant awards and the state’s process for meeting these requirements. This comprehensive resource will provide subrecipients with standard financial and administrative processes that will ensure compliance with the preparedness grant programs.

Application Process
Submission Requirements
Grant agreements, assurances, and additional required documents signed by the fiscal agent, as well as a prioritized list of projects with each regional advisory committee member’s signature, must be mailed to Ohio EMA with a postmark no later than December 13, 2019. It is highly recommended that the applicant use a method of delivery that can be tracked, as applications received after the deadline will not be considered. An application template is included with this guidance; however, it is to be used as a tool to gather project information in a format that will streamline its input into EGMS. All EHP documentation will also need to be submitted with your region’s grant package submission.

For FY2019 a completed application package under SHSP-LE consists of thirteen parts:

- Signed grant agreement
- 20-16 Summary Sheet for Assurances
- 20-16A Assurances Non-Construction
- 20-16B Assurances Construction Program
- 20-16C Lobbying, Debarment, Suspension and Other Requirements
- 20-SF-LLL Disclosure of Lobbying Activities
- NIMS certification statement
- EGMS User Form
- Regional Fiscal Agent Contact Form
- Regional Law Enforcement Advisory Group Information
- Regional Project Sign-off Form
- Subaward Financial Management Form (FFATA for subrecipients)
- EHP Screening tool (required unless project is exempt)

*In order to receive FY2019 SHSP-LE funding, the subrecipient is required to certify as part of their grant application that they are addressing and/or have met the most current NIMS requirements. Additional information about NIMS requirements can be found at Ohio EMA NIMS Guidance or via FEMA’s NIMS webpage. For FY2019, all 88 county Emergency Management Agencies have verified their NIMS compliance through Ohio EMA Planning, Training, and Exercise Branch. The NIMS certification statement is still required for submission by any other organization receiving FY2019 SHSP-LE funding (e.g. Law Enforcement, Fire, EMS, etc.).

Post Award Requirements
Issuance of Grant Agreement
A grant agreement will be generated and sent to the subrecipient along with any special conditions. This grant agreement must be mailed with original signature to Ohio EMA by December 13, 2019. Any costs incurred prior to issuance of the executed grant agreement with assurances and official EGMS budget approval may not be reimbursed.
Grant Performance Period
The performance period for the FY2019 SHSP-LE will be September 1, 2019 through December 31, 2021. Note that all costs must be incurred within the period of performance to include receipt and installation of all equipment. No funds may be spent on activities or costs that occur outside of the defined grant performance period. Extensions to the grant performance period will only be approved if the subrecipient can provide compelling justification for why the approved projects are incomplete.

Standards for Review
Once the region’s prioritized list of projects has the necessary signatures, begin the application process by utilizing the EGMS Budget Line Item Generator to assist in development of the grant application in EGMS. This excel spreadsheet, with drop-downs and prompts, is aimed at simplifying the application process. Subrecipients should utilize the technical expertise of grants staff to ensure they are submitting projects that meet the requirements established in this guidance. Ohio EMA Grants Branch staff will review the submitted projects to ensure compliance with this guidance document. Once the Regional Fiscal Agents have received written approval of their respective projects, they may then enter all projects and budgets within the Electronic Grants Management System (EGMS).

It is the intention of all involved to work from the first prioritized project through the list sequentially until the regional award is expended, provided the projects are allowable and meet all other review criteria established in this section.

Demonstrating Progress
Regional Fiscal Agents will be held accountable for meeting the milestones listed in the project application. While there will be a level of flexibility extended, obvious or repetitive lack of progress towards completion of grant funded activities may result in de-obligation of funds. Any de-obligated funds will be re-programmed by the state to projects that can be completed within the period of performance.

Standards for Financial Management
Subrecipients are required by 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards to have in place an accounting system that maintains records which adequately identify the source and application of funds provided for grant funded projects. The accounting system must include information pertaining to sub-grant awards, obligations, un-obligated balances, assets, liabilities, outlays or expenditures and income. Ohio EMA requirements for subrecipient accounting include the ability to track expenditures by grant program and by federal fiscal year of the award (i.e. FY2017 SHSP, FY2018 SHSP-LE, etc.).

Management and Administration (M&A) Costs and Requirements
Subrecipients may retain a maximum of up to five percent (5%) of requested funding for management and administrative purposes associated with the SHSP-LE award. M&A costs are specifically attributed to the management and administration of the FY2019 award. Indirect costs are not considered administrative costs and are not permitted under the FY2019 SHSP-LE grant. The allowable costs specifically include the following:

- Hiring of full-time or part-time staff or contractors to include, but not limited to, completing pre-grant application Budget Worksheets and Program Narrative; initiating, documenting, and tracking grant expenditures; inventorying equipment purchases; producing or completing
required grant reports such as the Request for Cash, Encumbrance Report, and federally-required ISIP and BSIR;

- Overtime and backfill costs related to accomplishing allowed administrative tasks only to the extent the payment for such services is in accordance with the policies of the local unit(s) of government;
- Applicable travel expenses to the extent the payment for such services is in accordance with the policies of the local unit(s) of government;
- Non-food meeting related expenses (2 CFR 200) associated with County’s Terrorism Advisory Team to discuss local homeland strategy implementation and/or grant program management;
- Acquisition of authorized office equipment, including personal computers, laptop computers, printers, LCD projectors, and other equipment or software which is required to support the implementation of the FY2019 SHSP-LE and only when no such equipment is currently available to accomplish the task;
- Recurring fees/charges associated with authorized office equipment, such as cell phones, faxes, etc. (this does not pertain to response equipment purchased under the eligible equipment program category); and
- Leasing and/or renting of office space for newly hired personnel who will administer the programs within FY2019 SHSP-LE, or for personnel currently being paid with SHSP-LE funds for grant administration and will now be responsible to additionally administer FY2019 SHSP-LE funding.

**Maintenance and Sustainment Costs**

The use of DHS/FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable, as described in FEMA Policy FP-205-402-125-1 under all active and future grant awards unless otherwise noted. With the exception of maintenance plans purchased incidental to the original purchase of equipment, the period covered by maintenance or warranty plan must not exceed the period of performance of the specific grant funds used to purchase the plan or warranty.

As an example of maintenance plan purchased incidental to the original purchase, you may submit a grant application to purchase a new piece of equipment and as part of the purchase include the cost of a five year warranty. Even though the warranty exceeds the period of performance, the warranty will be considered an eligible cost.

Routine upkeep (e.g., gasoline, tire replacement, routine oil changes, monthly inspections, grounds, and facility maintenance, etc.) is not considered a maintenance cost, and as such it is the responsibility of the grantee and may not be funded with preparedness grant funding.

**Construction and Renovation**

Use of SHSP-LE funds for construction is generally prohibited and will have limited applicability to Ohio’s FY2019 offering of SHSP-LE funding.

Project construction using SHSP-LE funds may not exceed the greater of $1,000,000 or 15 percent of the grant award. For the purposes of the limitations on funding levels, communications towers are not considered construction.
Written approval must be provided by DHS/FEMA prior to the use of any SHSP-LE funds for construction or renovation. When applying for construction funds, recipients must submit evidence of approved zoning ordinances, architectural plans, and any other locally required planning permits. Additionally, recipients are required to submit a SF-424C form with budget detail citing the project costs.

Recipients using funds for construction projects must comply with the *Davis-Bacon Act* (codified as amended at 40 U.S.C. §§ 3141 et seq.). Recipients must ensure that their contractors or subcontractors for construction projects pay workers no less than the prevailing wages for laborers and mechanics employed on projects of a character like the contract work in the civil subdivision of the State in which the work is to be performed. Additional information regarding compliance with the *Davis-Bacon Act*, including Department of Labor (DOL) wage determinations, is available online at [https://www.dol.gov/whd/govcontracts/dbra.htm](https://www.dol.gov/whd/govcontracts/dbra.htm).

### 28 C.F.R. Part 23 Guidance

DHS/FEMA requires that any information technology system funded or supported by these funds comply with 28 C.F.R Criminal Intelligence Systems Operating Policies if this regulation is determined to be applicable.

### Standard Financial Requirements

Any subrecipient(s) accepting grant funds from Ohio EMA shall comply with all applicable laws and regulations outlined here. The administrative requirements that apply to most Department of Homeland Security (DHS) award recipients and specifically the awards made to our governmental partners through the grant program(s) included in this guidance arise from 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

The requirements for allowable costs/cost principles are contained in 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, DHS program legislation, Federal awarding agency regulations, the terms and conditions of the award and the accompanying grant guidance. The applicable costs principles for the grants included in this guidance are:

- 2 CFR 2 Subpart E-Cost Principles

The subrecipient is required to ensure that the requirements of the federal grant are met as well as any applicable requirements of the state and local government. Acceptance of a federal grant and its requirements do not relieve the subrecipient of requirements of local and/or state government. In addition, acceptance of federal grant funding means subrecipient Fiscal Agent must comply with and assume financial responsibility for audit findings. You must meet all local, state, and federal guidelines, whichever is stricter.

### Environmental Planning and Historic Preservation (EHP) Compliance

FEMA is legally required to consider the potential impacts of all grant-funded projects on environmental resources and historic properties. For SHSP-LE and other preparedness grant programs, this is accomplished via FEMA’s Environmental Planning and Historic Preservation (EHP) Review. Subrecipients must comply with all applicable EHP laws, regulations, and Executive Orders (EOs) in order to draw down their FY2019 SHSP-LE grant funds. Any project with the potential to impact natural resources or historic...
properties cannot be initiated until FEMA has completed the required FEMA EHP review. Grantees that implement projects prior to receiving EHP approval from FEMA risk de-obligation of funds.

SHSP-LE projects that involve the installation of equipment, exercises not specifically excluded from a FEMA EHP review per the GPD Programmatic Environmental Assessment (PEA) (for more information on the PEA see IB 345 and ground-disturbing activities, new construction, including communication towers, or modification/renovation of existing buildings or structures must undergo a FEMA EHP review.

Furthermore, for those proposed construction or renovation projects that are part of larger projects funded from a non-FEMA source (such as an EOC that is part of a larger proposed public safety complex), a FEMA EHP review must be complete before the larger project is initiated. For these types of projects, subrecipients must complete the FEMA EHP Screening Form (available via https://ema.ohio.gov/PreparednessGrants_Toolkit.aspx) and submit it, with all supporting documentation, to Ohio EMA Grant Branch staff. Refer to IBs 329, 345, and 356 located at https://www.fema.gov/grant-programs-directorate-information-bulletins for further details on EHP requirements.

The following activities would not require the submission of the FEMA EHP Screening Form:

- planning and development of policies or processes;
- management, administrative or personnel actions;
- classroom-based training;
- table top exercises and;
- acquisition of mobile and portable equipment (not involving installation).

Projects using SHSP-LE funds that were initiated or completed before an EHP review was concluded will be de-obligated. To avoid unnecessary delays in starting a project, grantees are encouraged to pay close attention to the reporting requirements for an EHP review.

Procurement

The procurement process is one of, if not the most, scrutinized aspect of the federal grant programs. The emphasis on how procurements are made is based from the 2 CFR200 requirements that “all procurement transactions be conducted in a manner providing full and open competition with the standards of this section (§200.319)”. Additionally, subrecipients must ensure that they meet the procurement requirements of the Ohio Revised Code and local procurement regulations. All subrecipients are strongly urged to seek out their procurement department/individual to seek guidance on implementing the grant requirements into the procurement of any grant funded item or service. In accordance with this requirement, subrecipients will be required to document actions that demonstrate compliance with the “full and open” regulation. 2 CFR 200 (§200.320) offers the following guidance in an effort to help sub-recipients navigate the requirements of procurement:

The non-Federal entity must use one of the following methods of procurement:

- Micro-purchases: Micro-purchases are defined as the acquisition of supplies or services, the aggregate dollar amount of which does not exceed $10,000 or the local procurement policy, whichever is more stringent. To the extent possible, the non-Federal entity must distribute these purchases equitably among qualified suppliers; micro-purchases may be awarded
without soliciting quotes if the price is considered reasonable and the local policy allows for this; in light of the reasonableness requirement Ohio EMA is suggesting subrecipients should still seek quotes where feasible. In order to document that the subrecipient has utilized the strictest of local, state, and federal procurement policies, Ohio EMA will require a copy of the subrecipient’s local procurement policy with each cash request.

- **Small Purchase**—price or rate quotations must be obtained from a minimum of three sources if the cost is less than $50,000 and the local policy does not establish a different, lower amount
- **Procurement by sealed bid (formal advertising)**—Bids are publicly solicited and a firm fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is lowest in price; consult 2 CFR 200 §200.320(c)(1) as well as local policy to determine what conditions make a sealed bid feasible
- **Procurement by competitive proposals**—generally used when conditions are not appropriate for the use of sealed bids; consult 2 CFR 200 §320(d) and local policy to determine the requirements that apply if this type of procurement method is used and must list each of the criteria the selection will be based on.
- **Procurement by noncompetitive proposals**—Will not be approved except in RARE circumstances when it is extremely well documented and only due to inadequate competition. Should you only receive one bid or quote you will need to contact the Grants Branch. Any procurement without 3 quotes or bids must have a pre-approval by Ohio EMA.

Subrecipients should note that the following situations are considered to be restrictive of competition and should be avoided (2 CFR 200 §200.319):

- Placing unreasonable requirements on firms in order for them to qualify to do business,
- Requiring unnecessary experience and excessive bonding,
- Noncompetitive pricing practices between firms or between affiliated companies,
- Noncompetitive awards to consultants that are on retainer contracts,
- Organizational conflicts of interest,
- Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance of other relevant requirements of the procurement, and
- Any arbitrary action in the procurement process.

Subrecipients will maintain records sufficient to detail the significant history of any procurement. These records will include, but are not necessarily limited to the following: local procurement policy, rationale for the method of procurement, request for quote correspondence, selection of contract type, contractor selection or rejection, and the basis for the contract price. Subrecipients alone will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements.

**Pre-Procurement Approval Process**

**Beginning with the 2019 SHSP-LE grant year, Ohio EMA is implementing the new Pre-Procurement Approval Process.** Prior to obligating any grant funds for approved projects, grant subrecipients will now be required to submit the Procurement Process form for review and approval by Ohio EMA Grants Branch staff. This form will detail the required documentation that must accompany the submission based on the intended method of procurement. Review and approval will be returned to the subrecipient within five business days (unless the submission requires additional information and/or clarification). The Pre-
Procurement Approval Process applies to any procurement above the Micro-Purchase Threshold ($10,000 and above).

To provide clarification on several areas of procurement interpretations, the following guidelines will now be required in the procurement process:

- **Micro-Purchase Procurement (<$10,000)**
  - Subrecipients will need to submit Suspension and Debarment verification documentation with their reimbursement request.
  - Subrecipients may utilize the GSA Schedule as a source for procuring items under the micro-purchase threshold.

- **Small Purchase Procurement ($10,000 - $49,999)**
  - Subrecipients will need to submit Suspension and Debarment verification documentation with their Procurement Process approval form.
  - A minimum of **three valid quotes** will be required to proceed with procurement. A valid quote is one that meets all specifications of the Request for Quote. If any quote is deemed ineligible by the subrecipient or Ohio EMA, the subrecipient will be required to send out additional Requests for Quote until they attain the required minimum of three valid quotes.
  - Subrecipients may utilize the GSA Schedule as a source for one of their valid quotes.

- **Sealed Bid Procurement ($50,000 and above)**
  - Subrecipients will need to submit Suspension and Debarment verification documentation with their Procurement Process approval form.
  - A minimum of **two valid bids** will be required to proceed with procurement. A valid bid is one that meets all specifications identified in the Invitation to Bid. If any bid is deemed ineligible by the subrecipient or Ohio EMA, the subrecipient will be required to send out additional Requests for Quote until they attain the required minimum of two valid bids.
  - Subrecipients may **NOT** utilize the GSA Schedule as a source for one of their valid bids.

- **Competitive Proposals ($50,000 and above)**
  - **This is only for use when sealed bidding is not possible as the terms of how a project are to be completed must be negotiated.**
    - Subrecipients will need to submit Suspension and Debarment verification documentation with their Procurement Process approval form.
    - The criteria and weight of all scoring criteria must be very clear in the specifications and must not be restrictive of competition per 2 CFR 200.319.
    - A minimum of **two valid proposals** will be required to proceed with procurement. A valid proposal is one that meets all specifications identified in the Request for Proposals. If any proposal is deemed ineligible by the subrecipient or Ohio EMA, the subrecipient will be required to send out additional Requests for Quote until they attain the required minimum of two valid proposals.

- **Inadequate Competition**
  - **This is only for use when the minimum amount of quotes, bids, or proposals as specified in the 2 CFR 200 and this guidance are not met.**
Subrecipients will need to submit Suspension and Debarment verification documentation with their Procurement Process approval form.

- Documentation must be provided to demonstrate the effort involved with attempting to competitively solicit price rates.
  - **For Procurements Requiring Quotes**: After a documented effort has been made to achieve three quotes and has not produced three quotes, a subrecipient may then bid the project. The award should then be made to the lowest bidder.
  - **For Procurements Requiring Bids**: After the initial Invitation to Bid (ITB) has been solicited and has not produced two valid bids, to document sufficient competitive effort a subrecipient may then solicit a second ITB and award to the lowest cost, qualified bid.
  - **For Procurements Requiring Proposals**: After the initial Request for Proposals (RFP) has been solicited and has not produced two valid proposals, to document sufficient competitive effort a subrecipient may then solicit a second RFP and award to the lowest cost, qualified proposals considering other clear evaluation criteria.”

Subrecipients are encouraged to work closely with Ohio EMA Grants Branch Staff throughout the procurement process to address any concerns and ensure compliance with federal, state, and local requirements.

**Socioeconomic Contracting Requirements**

This section lists the requirements of 2 CFR 200.321 with regard to contracting with small and minority businesses, women’s business enterprises, and labor surplus area firms. While documentation on compliance with this standard will not be required prior to reimbursement, it MUST be in your grant files and available for a monitoring visit by Ohio EMA and FEMA as well as subsequent audits. Subrecipients can use the resources of the Small Business Administration (SBA) to create a list of women and minority owned businesses that they can contact for solicitation. FEMA has created several tools to assist non-Federal entities with meeting the above-requirements. For further information, visit [https://www.fema.gov/procurement-disaster-assistance-team](https://www.fema.gov/procurement-disaster-assistance-team) and view documents under the Other Resources tab.

Keep in mind that each subrecipient must meet its own documented procurement procedures that reflect State and local laws and regulations, provided that the procurements conform to applicable Federal laws and standards established in 2 C.F.R. §§ 200.318 – 200.326.

- For example, if we assume that a city has a Minority and Woman-Owned Business Department, and it requires all of its departments to use the resources available through this department when it procures goods and services, then the city must not only meet this local procurement requirement, but also use the services of the SBA.
- The key for subrecipients is to document in grant files that steps have been taken to meet each of the six requirements of this section. When a subrecipient determines that one of the requirements is infeasible or unnecessary, such as establishing a delivery schedule that encourages participation by small and minority businesses, it needs to document its determination and the facts in the file. This documentation will show that it affirmatively attempted to meet each of the six requirements.
• IMPORTANT NOTE: The socioeconomic contracting requirements at 2 C.F.R. 200.321 apply to the following procurement methods: micro-purchases, small purchase procedures, sealed bids, and competitive proposals. Per FEMA legal counsel, “It is possible to follow the requirements, taking into consideration that some have qualitative language ("when economically feasible," “where the requirements permit").”

“2 CFR 200.321 Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms.
1. The non-Federal entity must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible.
2. Affirmative steps must include:
   a. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
   b. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
   c. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
   d. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;
   e. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
   f. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (1) through (5) of this section.”

Food Costs
With the exception of food costs associated with travel/per-diem or providing for a meal during an exercise where participants do not have the ability to leave, food costs will not be approved. In all cases where food is permitted, costs must be reasonable. Costs will be determined to be reasonable if the per person (documented participants) cost for food is equal to or less than the permitted per diem for the meal provided per the GSA website.

Project Management
Source Documentation
2 CFR Part 200 also requires that accounting records be supported by such source documentation as cancelled checks, paid bills, auditor payroll journals, signed (by employee and supervisor) time and attendance records, contract and sub-grant award documents, etc. As such, Ohio EMA requires that subrecipients have source documentation available prior to requesting cash reimbursement. Proper documentation for select items is as follows but not all inclusive but can be used as a minimum guideline:
• Travel costs
  o Copy of the government unit travel policy. Please specify if employee is being reimbursed directly by Fiscal Agent Jurisdiction or another local agency and their policy
  o Receipts/documentation as required by travel policy
Federal Per Diem Policy must be followed unless the jurisdiction reimbursing employee has outlined their own specific per diems.

- **Personnel costs**
  - Current official jurisdiction approved position description
  - Time and Effort documentation with activity reports reflecting allowable work and accomplishments as it pertains to the program and outlined in 2 CFR 200.

- **Contract costs**
  - Procurement Documentation
  - Copy of draft contract for eligibility review prior to contract award
  - Copy of awarded contract for grant file
  - Deliverables and timeline listed in contract
  - Terms of payment outlined in contract
  - For contracts to an individual, a signature of the “contractor” is required.

- **Equipment costs**
  - Procurement
  - Contracts
  - Invoice (not quote) for equipment purchased
  - Documentation that equipment is received on site and installed as necessary

- **Meeting/Conference/Training costs**
  - Procurement Documentation
  - Invoices
  - Contracts
  - Agenda/Course Description
  - Attendance roster or Certification (certificate required for training)

---

**Project Changes**

Per 2 CFR Part 200, subrecipients must obtain prior approval of the awarding agency (Ohio EMA) in any case where a change is to be made to the scope of the project, regardless of budget impact. Ohio EMA will require all subrecipients to request a budget modification and approval, to include EHP approval, through EGMS prior to costs being incurred for the item(s) to be changed. Costs incurred prior to appropriate actions being taken to modify and approve the budget may result in costs being denied for reimbursement.

**Equipment and Supplies Requirements**

Utilization of SHSP-LE funds for equipment purchases requires that subrecipients maintain specific documentation on each item through its useful life until final disposition occurs. Per 2 CFR 200, procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place will, as a minimum, meet the following requirements:

- Property records must be maintained that include (2 CFR 200 §200.313(d) Management requirements):
  - A description of the property,
  - A serial number or other identification number,
  - Source of funding for the property (including CFDA and FAIN)
  - Who holds title,
  - The acquisition date
  - Cost of the property,
  - The source of property,
o Percentage of Federal participation in the cost of the property,
o The location of the property,
o Use and condition of the property, and
o Any ultimate disposition data including the date of disposal and sale price of the property.

- A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.
- A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated.
- Adequate maintenance procedures must be developed to keep the property in good condition.
- If the subrecipient is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.
- Subrecipients who have purchased equipment with Federal funds must submit an annual inventory certification along with a current Master Asset Listing to the Grants Branch no later than January 31 of each year. The Master Asset Listing must be submitted in electronic format (Excel or .csv). The form is located on the Ohio EMA Grants Toolkit website.

When the equipment is no longer needed for the original project and/or has outlasted its useful life, 2 CFR 200 §200.313(e) prescribes the following requirements for final disposition:

- Items of equipment with a current per-unit fair market value of less than $5,000 may be retained, sold or otherwise disposed of with no further obligation to the awarding agency.
- Except in limited circumstances, items of equipment with a current per unit fair market value in excess of $5,000 may be retained or sold and the awarding agency (FEMA through Ohio EMA) shall have a right to an amount calculated by multiplying the current market value or proceeds from sale by the awarding agency’s share of the equipment.
- The non-Federal entity may transfer title to the property to the Federal Government or to an eligible third party provided that, in such cases, the non-Federal entity must be entitled to compensation for its attributable percentage of the fair market value of the property.
- In cases where a recipient or subrecipient fails to take appropriate disposition actions, the awarding agency may direct the recipient or subrecipient to take excess and disposition actions.

**Equipment** is defined as tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of the capitalization level established by the non-Federal entity for financial statement purposes, or $5,000.

**Supplies** is defined as tangible personal property other than “equipment” for use in this guidance have a disposition requirement when the residual value of the combined unused inventory exceeds $5,000. In cases where this may occur, the awarding agency is entitled to its share of the value of the remaining inventory.

**Sub-Granting**

No subrecipient receiving FY2019 SHSP-LE funding may sub-grant funding to another entity without prior coordination and approval from Ohio EMA. In order to be granted permission to sub-grant, the managing fiscal agent will have to demonstrate an ability to ensure compliance with all terms, conditions and requirements of the federal grant guidance and this guidance.
**Single Audit Requirements**

Subrecipients are responsible for obtaining audits in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. 7501–7507); 31 U.S.C. 503, 1111; Executive Order 8248; Executive Order 11541; and 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.” The audits shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial audits. Subrecipients must ensure that funds received and expended under this grant program are coordinated with the county’s fiscal office (treasurer, auditor, etc.).

**Audit Findings**

As the State Administrative Authority (SAA), Ohio EMA takes seriously the responsibility of administering the grant funds we are entrusted with from DHS/FEMA. This guidance refers to the Super Circular (2 CFR Part 200) and the requirements therein. Subrecipients (regional fiscal agents) should refer to the Super Circular and ensure they are meeting all requirements set forth therein. In addition, all requirements set forth in this guidance are passed along to subrecipients (Regional Fiscal Agents). By signing the grant agreement, subrecipients (Regional Fiscal Agent) agree to be bound by all requirements set forth in this guidance, the grant agreement, and the Super Circular. As a result, any audit findings that occur with respect to improper procurement or from not abiding by the requirements set forth in this guidance will be the responsibility of the subrecipient (Regional Fiscal Agent). Ohio EMA will assume no financial responsibility for said audit findings, and if forced to pay on behalf of the subrecipient (Regional Fiscal Agent) will take all action necessary to recover those costs.

**Reporting Requirements**

Upon official award, applicants acknowledge they agree to complete quarterly reports to the Ohio EMA; and also agree to update the Bi-annual Strategy Implementation Report (BSIR) on the federal Grants Reporting Tool (GRT), due as available from DHS-FEMA and coordinated by Ohio EMA each year until the grant concludes, and then to complete one final BSIR within 120 days of the federal grant closure date. Further information on quarterly and bi-annual reporting will be provided with issuance of the official grant agreement.

Subrecipients (Regional Fiscal Agents) will be monitored for fiscal performance utilizing the quarterly reports. Ohio EMA staff will be contacting subrecipients (regional fiscal agents) that do not reflect adequate spending levels on the quarterly reports in an effort to encourage active spending of the grant award and proactively address problems the Subrecipient (regional fiscal agent) is experiencing.

**Payment**

**Reimbursement Requests**

The reimbursement request process for the FY2019 SHSP-LE programs will be executed solely through the EGMS system. In order to be processed, Ohio EMA will require that reimbursements include documentation noting that services have been completed (contract, personnel, etc.) and/or that equipment has been received on site and invoiced. To be reimbursed, costs must be eligible and proper back-up documentation must be submitted through the EGMS.

Subrecipients must submit cash reimbursement requests as expenses are incurred or no less than once a quarter. Failure to do so will result in improper federal reporting and may result in loss of funds.
Upon approval by the Grants Branch, the subrecipients’ funds will be requested for payment from Ohio EMA’s fiscal unit. The payment process entails requesting money from the federal entity, receiving funds at the state level, vouchering the funds and the dispatching of an EFT/warrant to the subrecipient. While this process relies heavily on external stakeholders, Ohio EMA Grants Branch staff will work to ensure the quickest processing of subrecipient payments.

**Standards for Review**

The reimbursement review process includes an initial review for completeness, determination of eligibility and data entry of the cash request for tracking/monitoring. This review is conducted by the Grants Specialist and focuses on accuracy of requests, prior approval of costs in the budget and ensuring complete documentation accompanies the request. Cash requests that are properly executed by the subrecipient will be processed in 10 business days or less.

If a request is not complete (including but not limited to the following items: lack of proper documentation, costs not included on the approved budget, no prior EHP approval, etc.) the request will be rejected to the subrecipient fiscal agent for revision. Subrecipients are encouraged to utilize their Grants Specialist for technical assistance in filling out the cash request and compiling documentation to support the cash request prior to submission in an attempt to expedite the approval process.

**Enforcement, Termination and After the Grant Requirements**

Ohio EMA is required to monitor the subrecipient’s (regional fiscal agent’s) compliance with the Federal statutes, regulations, State law and terms and conditions of the sub award as codified in 2 CFR 200.331. If Ohio EMA becomes aware of an area of non-compliance it will inform the subrecipient (regional fiscal agent) through a Notice of Non-Compliance. The subrecipient (regional fiscal agent) may be given steps to remedy the area(s) of non-compliance, or if the non-compliance cannot be remedied then Ohio EMA will take action against the subrecipient (regional fiscal agent) congruent to 2 CFR 200.338-339. Ohio EMA can impose any of the following actions for non-compliance: temporary withholding of funding, disallowing costs and/or reimbursements, wholly or partially suspend an award of funds, initiate suspension or other departmental proceedings, withhold further funding or participation in the program, and any other remedy that is legally available. Below is an outline of the monitoring process the subrecipient is agreeing to follow:

- **Notice of Non-Compliance:** The Ohio EMA Grants Branch Chief will send electronic notice of Non-Compliance to the subrecipient. The Notice of Non-Compliance will inform the subrecipient of the following: The area(s) of non-compliance; Either (1) the steps required to of the subrecipient to come into compliance and the date by which the subrecipient must demonstrate compliance and the agency action if compliance is not met; or (2) Ohio EMA’s action against the sub- recipient if Ohio EMA determines non-compliance cannot be remedied; The method for requesting review of compliance steps or agency action.

- **Review subrecipient’s submission of compliance:** In the event the subrecipient submits compliance documentation, Ohio EMA Grants Administrator, in conjunction with the Grants Branch Chief, will review the subrecipient’s written submission and determine if there is full compliance. If the subrecipient has not met full compliance, Ohio EMA will take agency action, through a Notice of Action, the subrecipient received notice of in the previously issued Notice of Non-Compliance.
• **Method for requesting review:** Subrecipient will have thirty (30) days from the date of the Notice of Action to request reconsideration with the Executive Director. The subrecipient must send the request in writing and should include any additional information or documentation within the thirty day period for the Executive Director to consider. The Executive Director will make a decision in writing within sixty (60) days of receipt of the request for reconsideration. However, if the Executive Director needs additional time, the subrecipient will be given notification of the extended time frame. The decision of the Executive Director is final. The subrecipient is not entitled to any further appeals within Ohio EMA, or pursuant to any federal or state regulation, code, or procedure.

**Availability of Public Records**
Ohio’s Public Records Law generally requires disclosure of information. Ohio Revised Code Section 149.43 sets forth requirements, along with exceptions for disclosure. Specifically, Section 149.433 allows some security information to be exempt from disclosure.

Applicants are encouraged to consult state and local laws and regulations and discuss these requirements with their legal counsel. Subrecipients should be familiar with the regulations governing protected critical infrastructure information (6 C.F.R. Part 29) and sensitive security information (49 C.F.R. Part 1520), as these designations may provide additional protection to certain classes of homeland security information.
