

# ORS TAC MINUTES

Department of Public Safety  
1970 W. Broad St.  
Columbus, OH 43223

**Date:** 10/21/10  
**TAC:** Water TAC – Conf. Call  
**From:** Richard Lauffer  
**File Number:**  
**Approved:**  
**Paul Moledor**

# ORS

**Attendees or on the conference call:** Region Reps.: 1, 2, 3, 4, 5, 6, & 8.

## I. Grant- Paul Moledor

Paul asked the group if all have received (should have) their Notice of Award for the TAC's grant. The only Regions that weren't sure were Reg. 3 (Director Gordon) & 4 (Chief Woo).

In order to receive any state or federal funds, the agency must have completed the NIMS CAST procedures. This program must be rolled up to the federal government and the state. Mr. Rudy Blaser is the contact for the state. His number is 1-614-779-3825.

## II. TCL- Bob Kollar

The TCL document has been available for review by stakeholders with no specific feedback from them. A working draft will be ready in a couple weeks.

## III. Team Type Verification- Jim Dwertman

Jim sent the self-verification letters out. He is now receiving information back and reviewing the data. As of the meeting date, seven (7) surveys had been received. Once the info is reviewed the verification letter will be filed. The TAC will then start coordination an on-site verification inspection. Regions would like a copy of the most recent spreadsheet sent to them. Jim Dwertman will send out. The Chair stated he needed help getting information back from Shelby, Dover, Marion Co SAR Team, Miamisburg, and Sidney.

The major topic of discussion was the number of personnel needed to be on a team to be typed to a certain level. The issue is the minimum number needed vs. the number of personnel a team can muster for a response within and outside their region within the specified federal guidance time line.

The question was asked if two types of teams from the same team could get verified on the same visit? This point is up for discussion.

## IV. K-9 TAC Representative Mark Bender

**No report.**

**V. Animal TAC- Eric Reed**

No Report

**VI. Water Protocol – Kevin Ganger**

Will be working on the protocol this winter

**VII. Near Drowning – John Carney**

No report- mark bender will be working with John and the IADRS conference next week.

**VIII. Curriculum Committee – Paul Moledor**

FEMA reviewed document and asked the TAC to revise the program before approval. The curriculum committee will get back together to revise.

**IX. Old Business**

All Equipment received and inventoried by SFM Office.

In the US&R TAC meeting discussed what to call US&R teams. The Water TAC should enter in to discussion on what to call teams when multiple teams come to the same site. Everyone should review some ideas, and then discuss during next meeting.

We discussed the need to have a simple plan on what each regional swift water units is called. This will need discussed in the next meeting.

We also need to discuss communication talk groups for statewide events.

The committee decided to simply call the team by Region # Water Response Team. If it is two teams from the same regions, they will simply call them “team 1, 2, or A, B.”

**X. New Business:**

Discussion on # of personnel needed to on a team to be typed to a certain level. This issue is for the number of personnel that a team can actually muster for a response vs. the number of personnel on the team.

**Roll Call of Regions:**

Region 1 – Reported that Ballville Fire is who R-1 is using to work with water grant

Region 2 – cold-water near-drowning video completed and Pete will have copies

Region 3 – No Report
