DATE:    July 1, 2018

TO:        County Emergency Management Staff and Partners

FROM:      Sima S. Merick, Executive Director

SUBJECT:   Training Policy & Catalog for July 1, 2018 - June 30, 2019

I am pleased to present the Ohio Emergency Management Agency Training Policy and Catalog for July 1, 2018 through June 30, 2019.

It is important to emphasize training and professional development. We can improve our service to the citizens of the state of Ohio when we receive excellent training. I encourage each of you to take advantage of our courses as a means to broaden your knowledge base and refresh seldom used or practiced skills.

The Ohio EMA Training and Exercise Section coordinates and conducts the Ohio Emergency Management and Homeland Security Training and Exercise programs. Our audience includes local emergency management professionals, first responders, volunteer organizations, private organizations and other partners that focus on keeping Ohio safe from all hazards, natural or man-made. We also coordinate with other federal and state training providers and we are the State Administrative Agency (SAA) point of contact for other training resources.

If you have any questions concerning any of the course offerings, have unmet training needs or suggestions about how we can make our training program better, please contact the Ohio Emergency Management Agency Training and Exercise Supervisor at (614) 799-3677.

Mission Statement

“To coordinate activities to mitigate, prepare for, respond to, and recover from disasters.”
Established under Chapter 5502 of the Ohio Revised Code (ORC), the Ohio Emergency Management Agency (Ohio EMA) is the central point of coordination within the state for disaster response and recovery. More specifically, the ORC designates the executive director of Ohio EMA as the State Coordinator during emergency response and stipulates that he/she “shall coordinate all activities of all agencies for emergency management within the state; shall maintain liaison with similar agencies for emergency management within the state; shall maintain liaison with similar agencies of other states and of the federal government; shall cooperate with those agencies subject to the approval of the governor; and shall develop a statewide emergency operations plan that shall meet any applicable federal requirements for such plans.”

Effective emergency management systems are a tiered effort. When an emergency exceeds the capacity of local government, they request the assistance of the state through the State of Ohio Emergency Operations Center (SEOC), maintained and operated by Ohio EMA, and staffed by state agencies and non-governmental organizations. If an emergency response, exceeds the capacity of the state, the governor requests assistance from the president through the Federal Emergency Management Agency (FEMA).

The primary focus of the agency, when not in response or recovery mode, is to ensure the state and the nearly 12 million citizens residing in it, are prepared to respond to an emergency or disaster and to lead mitigation efforts against the effects of future disasters. Those preparedness activities include education, training, planning, exercising and improving communications to ensure Ohio’s readiness to respond to future emergencies and disasters.

The Ohio Emergency Management Agency has conducted operations from the State Emergency Operations Center/Joint Dispatch Facility, located at 2855 West Dublin-Granville Road in Columbus since October 1994.

GENERAL
The Ohio Emergency Management Agency (EMA) training section administers an emergency management-training program that offers a wide variety of courses for students. This year Ohio EMA will offer a variety of classroom courses at Ohio EMA as well as a number of mobile courses in local communities around the state.

In accordance with the Department of Homeland Security, Ohio EMA will process student requests to attend classes provided by FEMA’s Emergency Management Institute (EMI) as well as FEMA’s National Domestic Preparedness Consortium (NDPC) and Rural Domestic Preparedness Consortium (RDPC) partner sites. These training providers offer classes within Ohio as a mobile course and at their training sites in residence.

ELIGIBILITY
Most of the courses listed in this training catalog are available to anyone involved in emergency management or response at the local, state, or federal levels. Eligible attendees include public policymakers, emergency managers, response team leaders, volunteers, public health, schools, universities, first responders and many other partners from the public and private sectors.

ACCOMMODATING STUDENTS
It is the goal of Ohio EMA to ensure that all students have the tools necessary to successfully complete courses offered by Ohio EMA. If students require additional accommodations when attending trainings, they should let the Ohio EMA training office know, and they will confidentially meet reasonable requests.

Ohio EMA can also arrange to provide interpretation services. Students may elect to have tests read to them or arrange for extra time. All facilities that host courses, funded by Ohio EMA, are accessible by wheelchair.

If a student has a service animal, Ohio EMA will make accommodations for the student and their service animal. However, if the animal is not a service animal, or otherwise related to a documented medical need, we ask that students refrain from bringing pets to trainings. Students bringing a service animal to class should notify the Ohio EMA training section prior to the start of the course.

REGISTRATION AND ACCEPTANCE
To register for an Ohio EMA course or to see a current list of available courses, a prospective student should visit the Ohio EMA training website, http://ema.ohio.gov/Training.aspx. Students may view the course listings without creating a profile, however when registering for a course students must request a new user profile by emailing servicedesk@dps.ohio.gov or calling the Department of Public Safety Training Campus (PSTC) Help Desk at 614-752-6487. Once a profile is created, students may logon to the training campus and register at https://trainingcampus.dps.ohio.gov/cm/cm710/pstc/pstc.html. Students experiencing difficulties accessing the website, creating an account or registering for training should call the PSTC help desk. Course registration will generally close 7-10 working days prior to the course start date.

COURSE COST
There is no cost to attend courses sponsored by Ohio EMA; federal grants fund all courses and the agency provides students free course manuals and supporting materials.

CLASS CANCELLATION POLICY
Ohio EMA training will only cancel courses under extreme circumstances or for low registration. However, in the event that Ohio EMA cancels a course, the agency will contact all students to advise them of the cancellation within one working day of course cancellation. Students are not required to cancel lodging reservations for courses cancelled by Ohio EMA. If Ohio EMA cancels a course, there will not be a charge of any hotel cancellation fees or fines to the student.
STUDENT CANCELLATION AND NO-SHOW POLICY

Registration Cancellation
Students wishing to cancel a course registration must notify the Ohio EMA training section no later than two weeks prior to the start of class. To cancel, students should call either Lisa Jones (614) 799-3824 or Susan Traylor (614) 799-3666 and they will handle the cancellation in the PSTC training campus and will open the seat to another student on the waitlist. If two weeks' notice is not possible, the student should contact the training section as soon as they know they can no longer attend the training. Our goal is to ensure that our training opportunities are available to our target audience and to let other students from the waitlist fill the available seats. The agency will not provide credit to students who do not attend a minimum of 90% of the class.

It is also the student’s responsibility to contact the hotel to cancel their reservation prior to the scheduled arrival date. State fiscal policy prohibits payment by Ohio EMA for unused rooms. Students failing to cancel their hotel reservation will be required to pay for the room.

Student No Show
If a student misses two classes within one year without notifying the Ohio EMA Training Office prior to the training, Ohio EMA will not permit them to register for training courses for one year from the last missed training. For example if a student misses a training and fails to notify the training section in April and another in August, they will not be permitted to register for another training until August of the next calendar year.

ATTENDANCE AND CONDUCT

Student Conduct and Dress
Ohio EMA expects students to conduct themselves in a professional manner at all times while in class and the agency expects students to dress appropriately for class. As a rule, dressing in business casual is appropriate. Ohio EMA will dismiss students from the course that display a nonprofessional appearance or disruptive behavior and may ban the student from attendance at any future Ohio EMA courses.

Attendance Policy
Ohio EMA expects students to arrive on time, and attend all sessions or blocks of instruction for the course and attend a minimum of 90% of the course to be eligible for successful completion. Selective attendance and late arrival is a deterrent to individual learning and a disruption to other students. Ohio EMA may dismiss students from the course for late arrival or any absence from the class. If Ohio EMA provided lodging, students who fail to attend all sessions, or blocks of instruction, for a course may be required to pay for their hotel room. If a student is going to be late, they should notify the Ohio EMA training section immediately.

Academic Honesty
Ohio EMA will dismiss any student from the class and ban them from attendance at any future course for displaying academic dishonesty.

Examples of academic dishonesty include:
- Cheating on an exam or quiz.
- Plagiarizing or claiming another’s work as your own.
- Obtaining, copying and/or distributing a course test in advance of a course.

CERTIFICATES

Course Completion
When a student completes a course, Ohio EMA will issue them a certificate electronically through the Department of Public Safety Training Campus (PSTC). These certificates will be emailed directly to the student using the email provided in the DPS training Campus, and will be kept electronically in their account. Please allow up to 14 days after class completion for training staff to generate certificates.
Certificate Acceptance
Course certificates from Ohio EMA, other states or federal agencies are acceptable as prerequisites for other courses. If the certificate is from a county or city and it is a class that Ohio EMA certifies instructors for, then only certificates with Ohio EMA certified instructors listed on the certificate are acceptable. Please note that this applies to any class delivered after the October 2013 release of the Ohio EMA Certified Instructor Policy. If the class took place prior to the implementation of the 2013 certified instructor policy, Ohio EMA will accept the certificate. Certificates must come from a reputable agency and there are NO substitutes for training certificates. For example, if a student is required to take the ICS 300 as a prerequisite, or as part of an agency requirement, then the certificate must have “ICS 300” stated on it with the course sponsor’s name on the certificate.

CLASSROOM POLICY
Weapons in Classrooms
Ohio EMA does NOT permit weapons of any type in classrooms, unless the student is a sworn peace officer. For trainings at Ohio EMA, sworn peace officers carrying a weapon must show a badge and proper identification at the front desk when signing in for training.

Food in Classrooms
Please be advised that the Ohio Emergency Management Agency prohibits food in the classrooms at Ohio EMA (no food of any kind); and ALL drinks, including coffee, must be covered with a lid.

Tobacco Use in Classrooms
The agency PROHIBITS the use of all tobacco and vapor products, regardless of the training location.

Cell Phone and Electronic Devise Use in Classrooms
Students must be respectful of other students as well as the instructors. The use of cell phones and other electronic devices should be limited during class time. If a student must check emails or make phone calls, they should excuse themselves from the class or use electronic devices during breaks. However, some classes will require the use of such devices as a learning tool.

Animals in Classrooms
Ohio EMA does not permit pets in the classroom; students bringing a certified service animal to class should notify the Ohio EMA training section prior to the start of the course and the agency will make accommodations for the service animal(s).

LODGING POLICY
Some classes hosted by Ohio EMA will also have no-cost lodging for eligible students. Course announcements will detail whether or not no-cost lodging is available to students. Ohio EMA may provide no-cost lodging if the student is an Ohio resident or works in the state of Ohio. Federal and private sector employees are not eligible for no-cost lodging provided by Ohio EMA and must fund their own lodging. Ohio EMA only provides no-cost lodging for eligible students commuting 45 miles or more away from their home and office to the training location. If either the student’s home or office is less than 45 miles from Ohio EMA or the training location, Ohio EMA will not provide no-cost lodging.

Students can find hotel information on the course enrollment notification they receive once enrolled. Eligible students must contact the hotel listed in the course announcement NO LATER THAN TWO-WEEKS BEFORE THE START DATE OF THE COURSE to make their reservation. Students that request lodging and withdraw from a course, must contact the hotel to cancel their lodging reservation; failure to cancel reserved lodging for those that withdraw from a course or do not show up for the course will result in a charge to the student individually.
For students that work for the federal government, a private business, or are from a state other than Ohio, all travel expenses associated with attending Ohio EMA delivered or sponsored training, including any overnight lodging, will be at the student or their agencies expense.

Ohio EMA funding for lodging rooms is contingent upon the student’s completion of the course. If the student does not complete the course, the cost of lodging is at the student or their agencies expense.

Meals, Per Diem, and all other travel expenses are the responsibility of the student or their parent organization.

Please understand that when making a reservation with the hotel, students will need to provide the hotel a personal credit card for their file (use of a credit card is recommended when making a reservation, as a debit card may experience an immediate withdrawal); this will cover incidental expenses (e.g. room service, damage, in room movies, etc.). In addition, the hotel will charge the credit card on file if he or she does not cancel their reservation or they are a “no show” for the training.

TRAINING RECORDS AND TRANSCRIPTS
Ohio EMA maintains all course records in the Public Safety Training Campus (PSTC) database for a minimum of seven years. Students can access their transcript by logging on to the PSTC website and accessing the transcript link. Students may also request a copy of their transcript by sending a written request to the Ohio EMA training section.

COUNTY DIRECTOR TRAINING REQUIREMENTS
Sections 5502.26, 5502.27, and 5502.271 of the Ohio Revised Code require each Director of an Emergency Management Agency for a political subdivision to pursue a professional development program in accordance with rules developed under section 5502.25 of the Revised Code. The Ohio Administrative Code 4501:3-5-01 provides details to county emergency management directors on required emergency management training. Directors shall complete the following trainings:

1. The "Introduction to Emergency Management in Ohio Course (OH-230)" for directors appointed after June 30, 2016. Equivalent courses will continue to be valid for those appointed before July 1, 2016.
2. One emergency planning course taught at the "Emergency Management Institute" at Emmitsburg Maryland, an extension of the "Emergency Management Institute" at a state sponsored course or an equivalent course taught at an accredited university.
3. One exercise design course taught at the "Emergency Management Institute" at Emmitsburg, Maryland, an extension of the "Emergency Management Institute" at a state sponsored course or an equivalent course taught at an accredited university.
4. One disaster recovery course taught at the "Emergency Management Institute" at Emmitsburg, Maryland, an extension of the "Emergency Management Institute" at a state sponsored course or an equivalent course taught at an accredited university.
5. A minimum of two refresher or continuing education courses annually.

Upon assuming the position of director of emergency management for a political subdivision, the individual shall complete, or have completed, the required courses within a three-year period from the date of appointment.

All EMPG-funded personnel shall complete the Independent Study (IS) courses identified in the Professional Development Series (PDS): https://training.fema.gov/is/searchis.aspx?search=PDS  All EMPG funded personnel must also complete the following independent study courses: IS100, IS200, IS700 and IS800. https://training.fema.gov/is/crslist.aspx?all=true

MULTI YEAR TRAINING AND EXERCISE PLAN
The Multi-Year Training and Exercise Plan (TEP) is a roadmap for building capabilities in the State of Ohio. The TEP outlines priorities as described in the State of Ohio Stakeholders Preparedness Review (SPR) and the Threat
and Hazard Identification and Risk Assessments (THIRA). The exercises and training courses listed in the online multiyear schedule support the implementation of PPD-8 and the Whole Community Approach priority. This is a living document that Ohio EMA reviews and updates on an annual basis in January of each year.

Included in the Multi-Year TEP is the Training and Exercise Schedule, which provides an illustration of the proposed activities scheduled within a three-year period. This schedule is representative of the natural progression that should take place in accordance with the progressive planning and building-block approach to training and exercises.

Ohio EMA tentatively plans and schedules most trainings and exercises listed in the complete schedule. Priorities and resources may shift prior to conducting the listed training and exercises. The agency updates this schedule annually in January to keep up with those changes and current direction for preparedness activities. The complete TEP and a detailed schedule of training and exercises by county, agency, month and year is located at the following link: [http://ema.ohio.gov/Training_MultiYearTrainingAndExercisePlan.aspx](http://ema.ohio.gov/Training_MultiYearTrainingAndExercisePlan.aspx).

**TRAINING REQUEST POLICY**

Counties and other local and state agencies can submit a training application at any time during the year. Applicants must submit their application at least 60 days prior to the course start date and must have the county EMA director’s signature on it.

Due to purchasing constraints, Ohio EMA will not accept Training requests applications that will require Ohio EMA to fund instructors for training in the month of July. Moreover, applicants must submit training applications for August and September to Ohio EMA no later than June 1. All other classes will still require 60 days notification prior to the training to ensure procurement of instructors, materials and to allow for adequate registration time.

Ohio EMA training section staff will review the application to make sure that funding is available and the form contains all required information. Applicants can find the Training Request Policy on the Ohio EMA website at [http://ema.ohio.gov/Training_PolicyForRequestingTraining.aspx](http://ema.ohio.gov/Training_PolicyForRequestingTraining.aspx).

Eligible expenses for trainings include instructor fees and printing of course materials. Ohio EMA staff will ship course material to the location provided on the application. Room costs, food/refreshments, supplies and lodging are not permissible expenditures under the training application policy.

**INSTRUCTOR CERTIFICATION POLICY**

As of October 2013 Ohio EMA implemented a new Instructor Certification Policy. This policy provides the requirements necessary for consideration to be an Ohio EMA certified instructor. The agency developed the certified instructor policy to ensure that qualified persons are providing instruction within the state of Ohio and to provide supporting guidance for course length and other topics related to instruction. Interested individuals can find the certified instructor policy and a list of currently certified instructors on the Ohio EMA Website at [http://ema.ohio.gov/Training_InstructorCertificationInformation.aspx](http://ema.ohio.gov/Training_InstructorCertificationInformation.aspx).

**TYPES OF COURSES**

The various preface codes that are associated with the trainings offered in Ohio:

- **AWR** – Awareness level training offered by consortium partners
- **E** – Resident courses held at the EMI National Emergency Training Campus (NETC)
- **G** – FEMA Emergency Management Institute (EMI) state sponsored courses offered in a classroom setting
- **IS** – Independent study FEMA courses are available online [http://training.fema.gov/is/crslist.asp](http://training.fema.gov/is/crslist.asp)
- **K** – EMI resident course conducted via adobe connect
- **L** – A mobile delivery of an EMI course that is located away from the EMI campus and taught by FEMA Certified Instructors
MGT – Management level training offered by consortium partners
OH – State of Ohio tailored courses. Curriculum is a combination of FEMA materials and information strictly related to the state of Ohio
V – EMI resident courses held via video teleconference (VTC)

AVAILABLE COURSES
Ohio EMA offers a variety of courses around the state. A complete list and descriptions of the FEMA “G” Courses is in Appendix A of this document (the list may change as new classes become available or if FEMA discontinues classes).

- G-108 Community Mass Care and Emergency Assistance
- G-141 Basic Instructional Skills
- G-191 Incident Command System (ICS)/Emergency Operations Center (EOC) Interface
- G-194.1 Local Floodplain Manager Roles and Responsibilities
- G-194.2 National Flood Insurance Program (NFIP) Rules and Regulations in Depth
- G-194.4 Preparing for Post-Disaster Responsibilities
- G-205 Recovery from Disaster: The Local Government Role
- G-235 Emergency Planning
- G-251 Workshop in Emergency Management Amateur Radio Resources
- G-270.3 Expedient Flood Training
- G-271 Hazardous Weather And Flooding Preparation
- G-272 Warning Coordination
- G-288 Local Volunteer and Donations Management
- G-289 Public Information Officer (PIO) Awareness
- G-290 & G-291 Public Information Officer (PIO) / Joint Information Center (JIC)
- G-300 / ICS-300 Intermediate ICS for Expanding Incidents
- G-318 Mitigation Planning Workshop for Local Governments
- G-358 Evacuation and Re-Entry Planning
- G-361 Flood Fight Operations
- G-364 Multi-Hazard Planning For Schools
- G-365 Partnerships for Creating and Maintaining Spotter Groups
- G-366 Planning for the Needs of Children in Disasters
- G-367 Emergency Planning for Campus Executives
- G-386 Mass Fatalities Incident Management
- G-393 Mitigation for Emergency Managers
- G-400 / ICS-400 Advanced ICS Command and General Staff – Complex Incidents
- G-402 ICS Overview For Executives And Senior Officials
- G-418 Mass Care / Emergency Assistance (MC/EA) Planning and Operations Course
- G-427 CERT Program Manager
- G-428 CERT Instructor Train-the-Trainer
- G-434a Earthquake Safety for Schools Continuity Program Manager
- G-489 Management of Spontaneous Volunteers in Disasters
- G-548 Continuity Program Manager
- G-557 Rapid Assessment Planning
- G-775 Emergency Operations Center (EOC) Operations
- OH-101 Developing and Maintaining Emergency Operations Plans
- OH-131 Exercise Evaluation
- OH-139 Exercise Design Course
- OH/L-146 Homeland Security Exercise and Evaluation Program Training Course
- OH-197 Planning for Access and Functional Needs in Emergencies
• OH-230 Introduction to Emergency Management Course
• OH-278 Benefit Cost Analysis (BCA) Workshop
• OH-605 Individual Assistance (IA) Damage Assessment Workshop
• OH-606 Recovery from Disaster Workshop
• OH-607 Public Assistance Cost Documentation/Damage Assessment Course
• OH-361 Fundamentals of Safe Room Design and Construction

ALL-HAZARDS POSITION SPECIFIC COURSES

The All-Hazards Position Specific Training Program is currently comprised of 18 separate courses of instruction as listed below. The primary audience for these courses are Incident Management Team (IMT) Members. The standard prerequisite are as follows: IS-100, IS-200, IS-700, IS-800, G-300 and G-400.

To learn more about these courses please review the Administrative Guidelines located at http://training.fema.gov/AllHazards/. Applicants can request these courses through Ohio EMA training staff.

• NIMS ICS All-Hazard Incident Commander Course (E/L-0950) (40 Hour Course)
• NIMS ICS All-Hazards Public Information Officer Course (E/L-0952) (40 Hour Course)
• NIMS ICS All-Hazards Safety Officer Course (E/L-0954) (32 Hour Course)
• NIMS ICS All-Hazards Liaison Officer Course (E/L-0956) (16 Hour Course)
• NIMS ICS All-Hazards Operations Section Chief Course (E/L-0958) (32 Hour Course)
• NIMS ICS All-Hazards Division/Group Supervisor Course (E/L-0960) (24 Hour Course)
• NIMS ICS All-Hazards Planning Section Chief Course (E/L-0962) (32 Hour Course)
• NIMS ICS All Hazards Situation Unit Leader Course (E/L-0964) (40 Hour Course)
• NIMS ICS All Hazards Resource Unit Leader Course (E/L-0965) (28 Hour Course)
• NIMS ICS All-Hazards Logistics Section Chief Course (E/L-0967) (40 Hour Course)
• NIMS ICS All-Hazards Communications Unit Leader Course (E/L-0969) (24 Hour Course)
• NIMS ICS All-Hazards Supply Unit Leader Course (E/L-0970) (32 Hour Course)
• NIMS ICS All-Hazards Facilities Unit Leader Course (E/L-0971) (40 Hour Course)
• NIMS ICS All-Hazards Finance/Administration Section Chief Course (E/L-0973) (24 Hour Course)
• NIMS ICS All-Hazards Finance/Administration Unit Leader Course (E/L-0975) (24 Hour Course)
• NIMS ICS All-Hazards Task Force/Strike Team Leader Course (E/L-0984) (24 Hour Course)
• NIMS ICS All-Hazards Introduction to Air Operations Course (/L-0986) (24 Hour Course)
• NIMS ICS All-Hazards Air Operations Group Supervisor Course (E/L-0987) (16 Hour Course)
• NIMS ICS All-Hazards Medical Unit Leader course (E/L-988) - to be developed

The National Emergency Management Basic Academy

The National Emergency Management Basic Academy is a gateway for individuals pursuing a career in emergency management. Similar to basic academies operated by the fire service and law enforcement communities, the National Emergency Management Basic Academy will provide a foundational education in emergency management.

Target Audience:
The Basic Academy is designed for newly appointed emergency managers, including members of state, local, tribal, and territorial homeland security or emergency services programs; nongovernmental organizations, voluntary agencies, or professional organizations; private sector emergency management offices; college or university emergency management staff; and FEMA, federal partners and military.

Classroom Course Requirements:
The Basic Academy consists of the following classroom courses and attendance at each course is required to receive the Basic Academy certificate of completion (Also, individuals must complete the E/L0101, Foundations of Emergency Management as a prerequisite to the other courses).
- **E/L0101, Foundations of Emergency Management** (80 hours) 10 days
- **E/L0102, Science of Disaster** (approximately 24 hours) 3 days
- **E/L0103, Planning: Emergency Operations** (16 hours) 2 days
- **E/L0104, Exercise Design** (16 hours) 2 days
- **E/L0105, Public Information and Warning** (16 hours) 2 days

**Total course hours:** 152 hours

**Required Prerequisites:**
Four online Independent Study courses are required as prerequisites to the classroom courses (individuals must complete all four required prerequisites course before to must submitting an application for E/L0101 Foundations of Emergency Management course).

- **IS-100** (any version) – Introduction to the Incident Command System (ICS)
- **IS-700** (any version) – National Incident Management System (NIMS), An Introduction
- **IS-800.b** – National Response Framework, An Introduction

**Ohio EMA Training Partners**

**Emergency Management Institute (EMI)**

FEMA has eliminated the use of the Social Security Number (SSN), where possible, when applying for any FEMA training. Individuals applying for National Fire Academy (NFA) or Emergency Management Institute (EMI) classes will be required to register using the Center for Domestic Preparedness (CDP) Training Administration System (CTAS) and obtain a CDP Student Identification (SID) number. Students will use the SID number instead of their SSN on the application. Anyone already registered in the CTAS system will not need to register again.

Students wishing to register for an EMI class or any other consortium class will need their Student Identification Number (SID). To create an account and get a SID, students should visit [https://cdp.dhs.gov/femasid/](https://cdp.dhs.gov/femasid/). To register for an EMI course, prospective students should send an application (FEMA form 119-25-1) to the state training officer via mail or fax. The state training officer will check the application for completeness and forward it to EMI. EMI will notify the prospective student directly if they have been accepted, declined or wait-listed. Interested individuals can find the course schedule, catalogue and an application for EMI courses at [http://training.fema.gov/EMICourses/](http://training.fema.gov/EMICourses/).

FEMA expects students that attend courses at EMI to attend all sessions of each course, seminar, or workshop. EMI will not provide a course completion certificates nor reimbursed under the Student Stipend Program to those who fail to attend all sessions.

**Professional Development Series**

The Emergency Management Institute (EMI) offers self-paced courses designed for people who have emergency management responsibilities and the general-public. EMI offers all of the courses free-of-charge to those who qualify for enrollment. To get a complete listing of courses please visit: [http://training.fema.gov/is/crslist.aspx](http://training.fema.gov/is/crslist.aspx)

**Advanced Professional Series**

The ability to perform essential work in a disaster requires skills in emergency operations and management. These skills may be developed through this series of courses that offers “how to” training focused on practical information. This series emphasizes applied skills in disaster operations, management and coordination. Upon completion of the FEMA preapproved list of courses, students
can apply to EMI for a certificate of completion. Find more information at http://www.training.fema.gov/programs/aps/

National Emergency Management Academies/
FEMA’s Emergency Management Professional Program (EMPP)
The Emergency Management Professional Program (EMPP) will strengthen training for professionals in the Emergency Management field. The goal is to ensure that Federal training supports professionals in developing core competencies necessary to fulfill their responsibilities in mitigating outcomes, preparing for, responding to, and recovering from disasters. FEMA intends EMPP to provide foundational knowledge and skills for entry into the field; requisite skills to practicing professionals within specific programs or operational areas; knowledge and skills for mid-level professionals; and strategic leadership and critical thinking for senior leaders and policy makers involved with national and international events and policy.

1. National Emergency Management Basic Academy
   Focus: Foundational knowledge and skills
   http://training.fema.gov/empp/basic.asp

2. National Emergency Management Advanced Academy
   Focus: Multi-Agency Coordination in EOC and JFO; Specializing in Protection, Prevention, Mitigation, Response, and Recovery Areas
   https://training.fema.gov/empp/advanced.aspx

3. National Emergency Management Executive Academy
   Focus: Strategic Leadership and Critical Thinking
   http://training.fema.gov/empp/executive.asp

Department of Homeland Security (DHS) Consortium Training
To register for a DHS consortium course at one of their training sites, prospective students should send an application for the course to the state training coordinator, Lisa Jones via email at ljones@dps.ohio.gov, or fax at (614) 799-3823. The state training officer will check the application for completeness and forward it to the respective training site for processing. The training site will notify the prospective student directly of their approval and course dates.

Click on the link below to access a course catalog listing all available DHS consortium courses https://www.firstrespondertraining.gov/catalog.do?a=nted.

National Domestic Preparedness Consortium (NDPC) Training Sites https://www.ndpc.us/
The NDPC is a partnership of several nationally recognized organizations whose membership is based on the urgent need to address the counter-terrorism preparedness needs of the nation’s emergency first responders within the context of all hazards including chemical, biological, radiological, and explosive Weapons of Mass Destruction (WMD) hazards

- Center for Domestic Preparedness (CDP) http://cdp.dhs.gov
  The CDP provides hands-on specialized training to state and local emergency responders in the management and remediation of WMD incidents. Located at the former home of the U.S. Army Chemical School, Fort McClellan, the CDP conducts live chemical agent training for the nation’s civilian emergency response community. The training emergency responders receive at the CDP provides a valid method for ensuring high levels of confidence in equipment, procedures and individual capabilities.

- New Mexico Institute of Mining and Technology (National Energetic Materials Research and Testing Center) (NMIMT) http://www.emrtc.nmt.edu
  NMIMT offers live explosive training including the use of field exercises and classroom instruction. NMIMT is the lead NDPC partner for explosives and firearms, live explosives, and incendiary devices training.
- **Louisiana State University (LSU) (Academy of Counter-Terrorist Education)**
  [http://www.ncbret.lsu.edu](http://www.ncbret.lsu.edu)

  LSU provides training to law enforcement agencies and focuses its efforts on the delivery of the Emergency Response to Terrorism: Basic Concepts for Law Enforcement Course, and the development and delivery of the Emergency Response to Domestic Biological Incidents Course.

- **Texas A&M University (National Emergency Response and Rescue Training Center)**
  [http://teexweb.tamu.edu/](http://teexweb.tamu.edu/)

  Texas A&M delivers a set of courses to prepare state and local officials for the threat posed by weapons of mass destruction. Courses are developed and designed to provide each specific segment of the emergency response community with the tools needed to accomplish its role in the event of a WMD incident. Additionally, Texas A&M has developed an Interactive Internet WMD Awareness Course for emergency responders. Texas A&M also provides technical assistance to state and local jurisdictions in the development of WMD assessment plans.

- **National Disaster Preparedness Training Center (NDPTC)** [http://ndptc.hawaii.edu/](http://ndptc.hawaii.edu/)

  The National Disaster Preparedness Training Center is the only member of the NDPC to focus primarily on natural hazards. Uniquely positioned geographically and culturally, the National Disaster Preparedness Training Center at the University of Hawaii works collaboratively to develop and deliver training and education in the areas of disaster preparedness, response, and recovery to governmental, private, tribal, and non-profit entities. Combining urban planning and environmental management, the NDPTC addresses the needs of vulnerable at-risk populations; particularly the challenges faced by coastal and island communities.

- **National Nuclear Security Administration/Center for Radiological/Nuclear Training (NNSA/CTOS)** [http://www.ctosnnsa.org/](http://www.ctosnnsa.org/)

  Center for Rad/Nuc Training at the Nevada National Security Site Program develops and delivers the training for emergency first responders. This training prepares the responders to take immediate, decisive action to prevent or mitigate terrorist use of radiological or nuclear WMDs, such as Improvised Nuclear Devices (INDs) and Radiological Dispersal Devices (RDDs or “dirty bombs”).

**Rural Domestic Preparedness Consortium (NDPC) Training Sites** [https://www.ruraltraining.org/](https://www.ruraltraining.org/)

The RDPC is a DHS funded program providing training and resources to rural first responders. RDPC courses are offered both in-person and online, and are provided at no cost. Find more information about the RDPC in the overview.

**RDPC Overview YouTube Video** [http://www.youtube.com/therdpc](http://www.youtube.com/therdpc).
APPENDIX A: DETAILED COURSE DESCRIPTIONS

G-108 Community Mass Care and Emergency Assistance (16 hours)
The purpose of this course is to develop a foundational knowledge of Mass Care and Emergency Assistance services in the community. It is not a “how to” for sheltering. Participants will use this information to build community emergency action items and to identify gaps in the community’s program. The material is intended for community agencies, Non-Governmental Organizations (NGO), and private sector organizations that will collaborate to provide the Mass Care and Emergency Assistance. The course goal is to prepare community agencies, organizations, and businesses to work together in coordination with Emergency Management and traditional Mass Care providers to plan and provide Mass Care/ Emergency Assistance (MC/EA) services to those affected by disaster.

This is an "Elective" course in the Advanced Professional Series (APS) Program. It is also accepted as meeting 16 continuing education (CE) hours toward renewal of an Emergency Medical Services (EMS) certificate to practice, in accordance with OAC rule 4765-19-01.

G141 Instructional Presentation and Evaluation Skills (24 hours)
This course 2 ½ - 3 day course addresses the practicalities of conducting successful interactions, managing the classroom experience, and making presentations. It covers the basics of adult learning and of training evaluation for those wanting more experience in this area.

Participants have several opportunities to practice presentation and instructional skills, first as spokespersons for small groups, then during short duo presentations (3-minute individual presentations) and finally a 20-minute individual presentations using material related to their own programs or functions. Detailed feedback is provided.

A large number of job aids are provided to help in the application of training skills. To prepare for the 20-minute presentation, participants should come to class with materials from a pre-existing course that is related to their work.

This is an "Elective" course in the Advanced Professional Series (APS) Program.

This course supersedes the G265 Instructional Delivery course, which is accepted as meeting 16 continuing education (CE) hours toward renewal of an Emergency Medical Services (EMS) certificate to teach, in accordance with OAC rule 4765-19-01. The G141 course is currently under review for CE authorization.

G-191 Incident Command Center (ICS) / Emergency Operations Center (EOC) Interface (8 hours)
This course is designed for personnel associated with On-Scene Incident Command, EOCs and Multiagency Coordination (MAC) System entities. The goal of this course is to provide state and local emergency management officials with the knowledge and skills they need to operate an Emergency Operating Center (EOC) and interface it with an Incident Command System (ICS) field operation. By identifying and understanding the authorities, responsibilities, interests and assets of ICS and the EOC the participants are able to identify possible ICS / EOC Interface issues and begin developing an ICS/EOC interface action plan for their community. The course reviews ICS and EOC responsibilities and functions and depends heavily on exercise and group discussions to formulate the interface.

This is a "Required" course in the Advanced Professional Series (APS) Program.

Recommended Prerequisites: IS-0100.b, Introduction to the Incident Command System, ICS-100; IS-0200.b, Incident Command System for Single Resources and Initial Action Incidents; and/ or EOC Management courses
G-194.1 Local Floodplain Manager Roles and Responsibilities (8 hours)
This course is designed to familiarize participants with various aspects of the Floodplain Manager’s job. Four key roles are examined and discussed: Regulator, Coordinator, Educator, and Planner. These roles impact the Floodplain Manager’s job and have broad-reaching impacts in the community.

Special Requirement: Designed for Floodplain Managers with at least 2 years of floodplain management experience or who have the Certified Floodplain Manager (CFM) credential.

G-194.2 National Flood Insurance Program (NFIP) Rules and Regulations in Depth (8 hours)
This course is designed to review Section 60.3 of Title 44 of the Code of Federal Regulations (CFR) and other rules and regulations that impact floodplain management. Participants are led through discussions and interactive exercises that explore the details of the interpretations of the various regulations. Topics covered include: floodway and encroachment requirements; new residential building requirements; development in approximate A Zones; accessory and agricultural buildings; anchoring fuel storage tanks; regulating recreational vehicles; environmental and historical regulations; and typical compliance problems.

Special Requirement: Designed for Floodplain Managers with at least 2 years of floodplain management experience or who have the Certified Floodplain Manager (CFM) credential.

G-194.4 Preparing for Post-Disaster Responsibilities (8 hours)
This course is designed to familiarize participants with the issues surrounding getting teams started for work in the post-disaster environment. Topics include: Identifying Partners and Resources; Creating Post-Disaster Standard Operating Procedures (SOPs); Introduction to Post-Disaster SOPs; Introduction to Post-Disaster Operations; initial sweeps and public information; detailed substantial damage inspections; substantial damage declarations and posting; permitting documentation; and compliance and funding sources.

Special Requirement: This course has in-depth discussion of the topics and exercises to help Floodplain Managers prepare for post-disaster activities and is designed for Floodplain Managers with at least 2 years of floodplain management experience or who have the Certified Floodplain Manager credential.

G-205 Recovery from Disaster: The Local Government Role (16 hours)
This 2-day workshop is designed for local government disaster recovery professional (elected officials, city/county administrators, emergency management coordinators, public works directors, building inspectors, community planners, and unmet needs committee coordinators). The L/G 205: Recovery from Disaster: The Local Government Role Course replaces the G270.4 Recovery from Disaster Course and meets the G270.4 course requirement for the Advanced Professional Series Certificate. This course will meet the Ohio Administrative Code County Director training requirements. The goals of this course are:

- To increase understanding of local government responsibilities and challenges associated with disaster recovery.
- Provide a forum for discussion of “lessons learned” in disaster recovery at the local level.
- Prepare participants to develop and implement a pre-disaster recovery plan.

Recommended Prerequisites: IS-0100.b, Introduction to the Incident Command System, ICS-100; IS-0200.b, Incident Command System for Single Resources and Initial Action Incidents; and/or EOC Management courses

This course replaces G270.4 Recovery from Disaster as a "Required" course in the Advanced Professional Series (APS) Program. If you previously completed G270.4, you “DO NOT” need to retake this course for APS credit.
G-235 Emergency Planning Course (16 hours)
This course is designed for elected officials, emergency management coordinators and planners, department heads, risk managers, operations officers, and representatives of volunteer groups active in disasters. The course will provide the attendee with training in the fundamentals of the emergency planning process, including the rationale behind planning. It develops the students’ capacity for effective participation in the all-hazard emergency operations planning process to save lives and protect property threatened by disaster. Objectives: Answer the question, “Why plan?”, describe the hazard analysis and capability assessment processes, describe the EOP format and content, identify types of community support, state the rationale for a team approach to planning, describe EOP coordination and marketing, relate exercises to the planning process strategies, describe plan maintenance.

APS This is an "Elective" course in the Advanced Professional Series (APS) Program.

G-251 Workshop in Emergency Management Amateur Radio Resources (8 hours)
This workshop is designed for state and local elected officials, emergency managers, and other public officials, amateur radio operators. It educates the attendee about amateur radio resources that provide emergency communications. More specifically, the workshop provides information and guidance on Radio Amateur Civil Emergency Service (RACES), encourages state and local emergency management agencies to use RACES, and shows how these agencies can have an effective, integrated, and properly managed RACES organization.

G-270.3 Expedient Flood Training (1 hour)
This course provides training for volunteers, Emergency Managers, and emergency responder personnel on flood response techniques using sandbags and other materials. Attendees learn the basic methods and procedures used to construct a sandbag levee. This course is important for those working as part of an organized community flood control effort, as well as those people attempting an individual flood response to save an isolated home or small business. The content can be presented to volunteers during expedient flood training or to key personnel in advance of a flood event.

This training was adapted from the original course by Peter R. Jensen, CEM, published in 1994 by Quark Management Service.

G-271 Hazardous Weather And Flooding Preparedness (20 hours)
This course is designed to provide training for local and state emergency managers who respond to hazardous weather events, while promoting partnership and coordination between the National Weather Service (NWS) and emergency managers. Its purpose is to enhance an emergency managers’ ability to recognize potentially hazardous weather and flooding situations and equip them to plan appropriately and coordinate effective responses. The National Weather Service (NWS) and FEMA developed this course with input from many state and local emergency managers. It is intended to help promote a more proactive response to weather and flooding hazards through close coordination between emergency management and NWS. Material covered in the course includes: how the basic elements of weather can combine to create potential hazards in an area, weather forecast products and how to interpret them, anticipating hazardous weather for planning, warning, and response purposes and covers the roles and responsibilities of local recovery team members.

APS This is an "Elective" course in the Advanced Professional Series (APS) Program.

G-272 Warning Coordination (14 hours)
Every year the United States experiences more severe weather than any other country in the world. In order to reduce deaths, injuries, and property losses, emergency managers must work closely with the National Weather Service (NWS) and the news media to provide effective warnings that are received and understood by people at risk. This course is intended to help facilitate that process. It is designed to assist emergency managers to effectively utilize the information provided by the NWS to communicate accurate and consistent warnings to those at risk of hazardous weather and flood events. Since emergency managers play a critical role in coordinating
and communicating warnings to their citizen it is imperative that they are equipped to give citizens enough warning lead time and critical information allowing them to take appropriate and timely protective action. Among the topics presented are: the social dimensions of warning response, developing effective warning messages, developing an effective community warning process and working with the news media to create a weather warning partnership.

**APS**  This is an "Elective" course in the Advanced Professional Series (APS) Program.

**Recommended Prerequisites:** Participants should complete IS271, Anticipating Hazardous Weather and Community Risk, G271, Hazardous Weather and Flooding Preparedness, and IS-247, Integrated Public Alert and Warning System (IPAWS), before attending this course.

**Other Recommended Courses:** COMET program’s SKYWARN® Spotter Training course and G365, Partnerships for Creating and Maintaining (Weather) Spotter Groups.

**G-288 Local Volunteer and Donations Management (12 hours)**
This training supports local governments and their emergency management partners in preparing for, responding to, and recovering from disaster events at the local level. The course is designed to strengthen the abilities of local jurisdictions to successfully prepare for and handle volunteer and donations management issues that may arise. The course content and activities may also serve as a template, thereby enhancing uniformity in addressing areas of donated unsolicited goods, unaffiliated volunteers, and undesignated cash. This training also provides information regarding the state’s volunteer and donations management responsibilities, which are designed to help build relationships between government and non-governmental organizations.

**APS**  This is an "Elective" course in the Advanced Professional Series (APS) Program.

**Required Prerequisites:** IS-0288, The Role of Voluntary Organizations in Emergency Management

**Recommended Prerequisites:** IS-0700.a, National Incident Management System, an Introduction; and IS-0100.b, Introduction to the Incident Command System, ICS-100

**G-289 Public Information Officer (PIO) Awareness Course (8 hours)**
This awareness-level training is suitable for new PIOs, taken alone or before Basic Public Information Officer (PIO) (G290) training. A secondary audience is elected or other officials who want an overview of emergency public information.

Emergency Public Information Officers (PIOs) are responsible for ensuring that the affected public receives accurate and timely information during an emergency. Armed with good information, people are better able to make good decisions and, by doing so; contribute to the overall response goal of saving lives and protecting property. Some PIOs tasked with planning for, developing, and disseminating emergency public information at the state, tribal, and local levels bear this considerable responsibility concurrently with other job assignments. This course will orient the participants to the public information function and the role of the PIO in the Public Safety/ Emergency Management environment and is designed to acquaint participants with the concepts underlying the PIO role. Taken alone, this course can provide a basic understanding of the PIO function for those new to the position. Additionally, this training is a prerequisite and foundation for more advanced training that takes participants from the Awareness level to the Mastery level in their public information careers.

**G-290 & G-291 Public Information Officer (PIO) / Joint Information Center (JIC) (24 hours)**
G290 course emphasizes skills development, addresses the impact of technology on emergency public information, and offers options that allow states to tailor the instructional methodology to suit their needs while consistently meeting the course learning objectives.
The purpose of the G291 course is to build on the solo PIO competencies gained in the Basic Public Information Officer (PIO) (G290) course to applying those skills in an expanding incident where coordination is enhanced through the establishment of a Joint Information System (JIS)/Joint Information Center (JIC). This training will equip PIOS with the skills needed to establish and operate in a JIS/JIC. Participants will also gain a working knowledge of operational practices for performing PIO duties within the National Incident Management System (NIMS) multiagency coordination system. The course will demonstrate how JIC concepts are applied in a flexible and scalable manner at the local level.

**APS** G-290 is an "Elective" course in the Advanced Professional Series (APS) Program.

**Recommended Prerequisites:** G-289, Public Information Officer Awareness Training, or IS-0029, Public Information Officer

**G-300 / ICS-300 Intermediate ICS for Expanding Incidents (18 hours)**
This course provides training on and resources for personnel who require advanced application of the Incident Command System (ICS). The target audience for this course is individuals who may assume a supervisory role in expanding incidents or Type 3 incidents. These incidents may extend into multiple operational periods. This course expands upon information covered in the ICS-100 and ICS-200 courses. These earlier courses or an equivalent are prerequisites for ICS-300. This course will include but not be limited to: unified command, incident/event assessment and objective development, the ICS planning process, incident/event resource management, transfer of command and demobilization.

**Required Prerequisites:** IS-0100.b, Introduction to the Incident Command System, ICS-100; IS-0200.b, Incident Command System for Single Resources and Initial Action Incidents; IS-0700.a, National Incident Management System, an Introduction; and IS-0800.b, National Response Framework, an Introduction

**Recommended Prerequisites:** Experience using concepts and principles from ICS-100 and ICS-200 in a response or exercise

This course also meets 18 continuing education (CE) hours toward renewal of an Emergency Medical Services (EMS) certificate to practice, in accordance with OAC rule 4765-19-01.

**G-318 Local Mitigation Planning Workshop (16 hours)**
This course provides plan developers with the information necessary to prepare and implement a local “Hazard Mitigation Plan”. During this course participants will learn what constitute hazard mitigation and identify the benefits of mitigation planning; develop or update a local “Mitigation Plan”; and identify resources and guidance available for mitigation planning and plan implementation.

**APS** This is a "Required" course in the Advanced Professional Series (APS) Program. Either G318 or G393 are acceptable for APS credit.

**G-358 Evacuation and Re-Entry Planning (12 hours)**
This course is designed to provide participants with the knowledge and skills needed to design and implement an evacuation and re-entry plan for their jurisdictions. It focuses on planning the operational aspects of evacuation and re-entry. It **does not address the decision to evacuate or re-enter**. Participants will review their community’s vulnerability analysis and evacuation plans during the course exercises. The course also addresses evacuation behavior, recommends methods to make evacuation and re-entry more efficient and considers shelter destinations as a component of the evacuation planning process.

**APS** This is an "Elective" course in the Advanced Professional Series (APS) Program.
G-361 Flood Fight Operations (20 hours)
This course is for emergency managers, public works officials, levee district representatives, and others responsible for planning, preparing, and managing the response to a flood. Using a combination of lectures, discussions, activities, and exercises, the course will take participants through the complete process from well before the flood to clean-up afterwards. Officials from every community at risk of flooding should take this training.

While this training emphasizes how to conduct a flood fight, it provides information to help communities decide if a flood fight is possible and worth the effort and cost. Diagrams with materials lists and equipment and labor requirements to construct various types of temporary flood protection can be used to help determine if there is enough time and resources to protect the community. If the whole community cannot be protected, then officials must decide where to concentrate their efforts to protect some areas and/or evacuate and relocate what they can. If a flood fight is undertaken, it should be done the right way or the effort will be wasted.

G-364 Multi-Hazard Planning For Schools (16 hours)
This course provides schools with the knowledge, skills, and tools needed to refine or develop an all-hazards school Emergency Operations Plan (EOP) and to identify how to train and exercise the school EOP. This course follows the guidance set forth in the FEMA Comprehensive Preparedness Guide, CPG 101, for developing an emergency operations plan and explains how to utilize the National Incident Management System (NIMS) as the foundation for planning and building partnerships with outside agencies such as law enforcement, fire, and emergency management.

G-365 Partnerships for Creating and Maintaining Spotter Groups (7 hours)
This workshop emphasizes the valuable service that Spotter Groups provide to protect lives during hazardous weather and flooding. This activity is intended to promote the creation and enhancement of Spotter Groups across the country. It includes a wide variety of tools and approaches to help make Spotter Groups a key part of effective community warning systems. This workshop should be delivered jointly by Emergency Management and National Weather Service (NWS) staff.

G-366 Planning For The Needs of Children in Disasters (8 hours)
This course enables participants to improve their community’s Mitigation and Emergency Operations Plan (EOP), specifically regarding the needs of children. The course will provide participants with the information needed to address the unique needs of children prior to, during, and following disasters. It will also provide them guidance and direction on how to form coalitions and how to become advocates for the unique needs of children in all aspects of Emergency Management.

This course is also accepted as meeting 8 continuing education (CE) hours toward renewal of an Emergency Medical Services (EMS) certificate to practice, in accordance with OAC rule 4765-19-01.
G-367 Emergency Planning for Campus Executives (2 hours)
This overview of Emergency Planning serves as a briefing for executives of institutions of higher education. It provides them with insights into multi-hazard Emergency Planning and their role in protecting lives, property, and operations. The course consists of seven modules that can be delivered independently so that executives can tailor it to fit their schedules and needs.

The seven modules are:
- Emergency Management: What Is It? Why Do It?
- Executive-Level Support
- Developing Your Emergency Operations Plan
- Evaluating Your EOP
- Responding Using Incident Command System
- Emergency Operations Center
- Engaging Your Campus

Recommended Prerequisite: IS-0100.HE, Introduction to the Incident Command System (ICS-100) for Higher Education

G-386 Mass Fatalities Incident Course (16 hours)
This course prepares state and local response personnel and other responsible agencies and professionals to handle mass fatalities effectively and to work with the survivors in an emergency or disaster. This course covers incident management, mass fatalities, planning before and operations during an incident, establishing the morgue, family assistance support operation, and assistance from the federal government. The course concludes with a tabletop exercise.

This is an "Elective" course in the Advanced Professional Series (APS) Program.

G-393 Mitigation for Emergency Managers (21 hours)
This course is designed to enable the non-technical emergency worker to acquire skills in the use of mitigation. The course provides training in how to perform mitigation activities fundamental to reducing and eliminating long-term risk from hazards. It addresses the important roles of the emergency program manager (or other local government representative) in mitigation: motivator, coordinator, and monitor in local implementation of the National Mitigation Strategy.

This is a "Required" course in the Advanced Professional Series (APS) Program. Either G318 or G393 are acceptable for APS credit.

Recommended Prerequisite: Completion of IS-0393.a, Introduction to Hazard Mitigation, prior to enrollment

G-400 / ICS-400 Advanced ICS Command and General Staff – Complex Incidents (14 hours)
This course expands upon information covered in the ICS-100 through ICS-300 courses and is designed for senior emergency personnel who are expected to perform in a management capacity in a Multi-Agency Coordination unit or in an Area Command. The goals of the ICS-400 Advanced ICS are to explain how major incidents engender special management challenges; describe the circumstances in which an Area Command is established, and to describe the circumstances in which multi-agency coordination systems are established. There are group activities that incorporate the application of Area Command and Multi-Agency Coordination to enhance the objectives of the course.

This course provides training on and resources for personnel who require advanced application of the Incident Command System (ICS). These earlier courses are prerequisites for ICS-400.

Required Prerequisites: IS-0100.b, Introduction to the Incident Command System, ICS-100; IS-0200.b, Incident Command System for Single Resources and Initial Action Incidents; G0300, ICS-300: Intermediate Incident
Recommended Prerequisites: Experience using concepts and principles from ICS-100, ICS-200, and ICS-300 in a response or exercise

This course meets 14 continuing education (CE) hours toward renewal of an Emergency Medical Services (EMS) certificate to practice, in accordance with OAC rule 4765-19-01.

G-402 ICS Overview for Executives and Senior Officials (2 Hour Course)
The purpose of this course is to provide an orientation to executives and senior officials (including elected officials, city/county managers, agency administrators, etc.) an orientation to the Incident Command System (ICS). It covers what ICS is, organization and features, discuss the unified and area commands, coordination and incident management assessment and ICS preparedness.

This course replaced G194, Incident Command System for Public Officials.

G-418 Mass Care / Emergency Assistance (MC/EA) Planning and Operations Course (16 hours)
This two day course prepares Mass Care/Emergency Assistance (MC/EA) Coordinators and their teams to develop MC/EA plans that support and/or coordinate MC/EA disaster responses.

At the conclusion of the course, the participants will be able to:

- Describe MC/EA Activities
- Identify key MC/EA Planning Steps
- Describe the roles and responsibilities of the Mass Care Coordinator and Team
- Define the scale of the disaster & estimate needed resources to support a MC/EA disaster operation
- Discuss the primary elements of MC/EA Information Management

Recommended Prerequisites: Complete IS-405 Overview of Mass Care/Emergency Assistance at http://training.fema.gov/is/courseoverview.aspx?code=IS-405

G-427 CERT Program Manager (16 hours)
This two day course prepares members of local CERT teams to leverage available resources to grow their programs, retain their volunteers and improve community preparedness. The course provides effective procedures for managing a CERT program utilizing proven documentation and volunteer management strategies that provide students with the knowledge and tools to enhance their local CERT programs. Instruction topics include working with volunteers, developing a program plan, and sustaining programs.

It also covers considerations for developing and conducting a CERT Training Course (materials provided in hardcopy and electronically). This training is useful for other volunteer organizations due to the focus on program documentation and volunteer management.

Required Prerequisites: A referral from a CERT-sponsoring agency, typically a local, or regional government agency, and completion of the CERT Basic Training course and the IS-0317-Introduction to Community Emergency Response Team.

G-428 CERT Instructor Train-the-Trainer (24 hours)
This three day course prepares students to organize and teach the CERT Basic Training Course by demonstrating instructional methods and familiarizing students with the instructional modules of that course. This course also covers considerations for developing and implementing a CERT Training Course (materials in hardcopy and electronically).

Required Prerequisites – Registrants without a fire, rescue, or disaster preparedness background are required to have completed the standard 20-hour CERT Basic Training course or equivalent experience. Those with a fire,
rescue, and/or disaster preparedness background that have not taken or taught the CERT course are required to complete the online IS-317 Introduction to Community Emergency Response Teams course available at https://training.fema.gov/is/courseoverview.aspx?code=IS-317

G-434. A Earthquake Safety for Schools (12 hours)
The purpose of this course is to prepare school staff and administrators for an earthquake at their school location. The course is designed to describe the effects of an earthquake; explain how to mitigate those effects; state the key elements of an earthquake plan for preparedness, response, and recovery; and outline the procedures for training and exercises related to that emergency plan.

G-489 Management of Spontaneous Volunteers in Disasters (8 hours)
This course aims to introduce the keys to success in managing large numbers of spontaneous volunteers in disasters. Its underlying assumption is that much of the volunteer help is indeed needed, and that with basic emergency management coordination skills, the volunteer resources can often be put to effective use, making a positive difference in the affected community. The course will discuss the benefits spontaneous volunteers can bring to relief efforts and the challenges they may bring if not coordinated effectively. In addition, the course will examine planning considerations regarding spontaneous volunteers. Special emphasis is also placed on how to make full use of a “Volunteer Reception Center”—the backbone of any well-organized spontaneous volunteer management program.

Required Prerequisites: All course participants should be familiar with their local government Emergency Operations Plan Annex, if one exists, on the use of spontaneous volunteers and volunteers affiliated with relief organizations.

Recommended Prerequisites: In addition, the individuals should have a working knowledge of the Incident Command and National Incident Management Systems (IS-0100, IS-0200, IS-0700.a, National Incident Management System, An Introduction; and IS-0800.b, National Response Framework, An Introduction).

G-548 Continuity Program Manager (20 hours)
This course is designed to acquaint experienced Continuity of Operations (COOP) practitioners and instructors with the COOP Program Managers Course materials. The objectives include defining COOP; explaining the benefits of a viable COOP Program and Plan; identifying elements of a viable COOP Program; and identifying processes, resources, and tasks necessary to implement and manage a successful COOP Program. The course will also refresh experienced instructors on instructional methodology and techniques.

This course is designed for Public Sector staff with responsibility for managing their COOP effort. Others who are integral to the COOP planning process may also take the course.

G-557 Rapid Assessment Planning (8 hours)
This course provides information and resources that will enable participants to plan an effective Damage Assessment Program and conduct rapid and effective damage assessments in order to save lives, protect property and the environment, and begin the process of Recovery and Mitigation.

This is a "Required" course in the Advanced Professional Series (APS) Program.

Recommended Prerequisites: IS-0100.b, Introduction to the Incident Command System, ICS-100; IS-0200.b, Incident Command System for Single Resources and Initial Action Incidents; IS-0700.a, National Incident Management System, An Introduction; IS-0800.b, National Response Framework, An Introduction; IS-0120.a, An Introduction to Exercises; and IS-0130, Exercise Evaluation and Improvement Planning
**G-775 EOC Operations (16 hours)**
This course explores the role, design, and functions of Emergency Operations Centers (EOCs) and their relationships as components of a multiagency coordination system. The course contains disaster-related examples, activities, and case studies that relate to EOCs and multiagency coordination systems at the Federal, State, and local levels of government.

This is a "Required" course in the Advanced Professional Series (APS) Program.

**Recommended Prerequisite:** IS-0701.a, National Incident Management System Multi-Agency Coordination System Course

---

**OH-101 Developing and Maintaining Emergency Operations Plans (8 hours)**
This course primarily focuses on the planning development process, hazard analysis, basic plan, and annexes/emergency support functions relating to Emergency Operations Plans. Additional material covered includes Ohio Revised Code & Administrative Code requirements, CPG101 basics, NIMS, partner engagement, COOP, and a brief overview of the state EOP.

**OH-131 Exercise Evaluation (8 hours)**
The Exercise Evaluation course is designed to provide State and local emergency managers with a structure and guidelines that can be adapted for use in developing and implementing a system for evaluating exercises. This course content acknowledges that the evaluation function is an integral part of the overall exercise process as taught in the Exercise Design course (OH139).

**OH-139 Exercise Design (24 hours)**
This three-day course is designed to introduce students to the fundamentals of exercise design and prepare them to design and conduct a small functional exercise for their organization. Students will acquire fundamental knowledge and skills necessary to develop, conduct, evaluate, and follow-up on exercises. The course content addresses the fundamental requirements of an overall exercise program and its components.

**OH/L-146 Homeland Security Exercise and Evaluation Program Training Course (24 hours)**
This 3-day intermediate-level training program is designed for individuals involved in exercise programs and/or exercise design, development, conduct, evaluation, and improvement planning. It incorporates exercise guidance and best practices from the HSEEP Volumes. Participants should come with a basic understanding of exercise design and HSEEP terminology. Course topics include exercise program management, design and development, conduct, evaluation, and improvement planning.

In addition to the instructor led presentations, the course includes small group activities, videos, group discussions, and introductions to HSEEP and capabilities-based planning (e.g., Universal Task List (UTL); Target Capabilities List (TCL), transition to Core Capabilities). Activities include creating exercise documentation, conducting exercise planning meetings and briefings, and practicing exercise evaluation. There will be 2.5 CEUs awarded upon successful completion of this course.

**Required Prerequisite:** Independent Study (IS)-120a, An Introduction to Exercises.

This is an "Elective" course in the Advanced Professional Series (APS) Program.

**OH-197 Planning for Access and Functional Needs in Emergencies (16 hours)**
This 2-day course provides participants with the information necessary to utilize access and functional needs-inclusive practices during Emergency Planning. Course objectives include:
- Define access and functional needs and disabilities and how they differ.
- Define key terms related to inclusive planning.
• Identify appropriate resources to assist in planning for, and with, adults and children with disabilities and others with access and functional needs.

This course is designed for State, local, tribal and territorial emergency planning personnel, such as Emergency Managers, Fire Protection and Emergency Medical Services, Law Enforcement, Resource agencies including Transportation, Communications, Public Works, and Public Health; Non-Governmental Organization (NGO) and Volunteer Organizations Active in Disaster (VOAD), Disability groups/organizations.

**OH-230 Introduction to Emergency Management Course (24 hours)**

This course provides new emergency managers and staff with the knowledge, skills, and tools needed to develop an effective emergency management program in the state of Ohio. The course provides information on basic emergency management concepts and functions and how they are applied in Ohio. It includes modules on mitigation, preparedness, response, recovery, laws and authorities, and funding and grants. Understanding the fundamental principles and practices of emergency management provides a framework for the future professional growth of every emergency manager and responder. The material is designed to provide a basic framework and understanding of emergency management and homeland security in Ohio.

**OH-278 Benefit Cost Analysis (BCA) Workshop (12 hours)**

Hosted by the Ohio Emergency Management Agency and presented by the Federal Emergency Management Agency (FEMA), the goal of the Benefit Cost Analysis (BCA) Course is to educate participants on the software and information needed to perform a BCA on a potential mitigation projects using FEMA’s current BCA software (version 4.8). This course assists participants in developing quality BCAs to use when developing grant applications for the FEMA Unified Hazard Mitigation Assistance (HMA) grant programs.

**OH-361 Fundamentals of Safe Room Design and Construction (8 hours)**

This course is designed to provide local building officials, planners and emergency managers with the fundamentals of safe room design and construction. The purpose of this course is to provide participants with the knowledge fundamentals of safe room design and Construction. This design and construction guidance will show students how to ensure compliance with ICC 500, FEMA P 320, and FEMA P 361 (participants will be provided with copies FEMA 320, FEMA 361 and ICC 500 at the beginning of the course).

**OH-605 IA Damage Assessment Workshop (2 hours)**

This course provides a detailed overview of the following topics related to post-event assessment of the impact and magnitude of natural and person-made disasters to the private sector. Instruction includes: an overview of the local damage assessment process, criteria for Private Sector impacts, local damage assessment information reporting methods and standards for Private Sector, training local teams (composition or membership of damage assessment teams) and the roles and responsibilities of the Individual Assistance Damage Assessment Coordinator and team leads. This course also prepares students to perform, organize and teach IA Damage Assessment.

**OH-606 Recovery from Disaster Workshop (3 hours)**

This 3-hour course provides representatives of county / local emergency management, local governments (township, municipalities, county, special district, authorities, etc.), certain private non-profit organizations, and organized volunteer organizations with an overview of pre and post event topics related to disaster recovery. Training modules include an overview of the various supplemental State and Federal Disaster Assistance Programs, Pre-Disaster Recovery Planning and the post event Damage Assessment Process.

**OH-607 Public Assistance Cost Documentation / Damage Assessment Course (3.5 hours)**

This workshop introduces students to the FEMA Public Assistance (PA) Program by addressing the basics of damage assessment, cost documentation and procurement. The FEMA PA Program provides financial assistance to state and local governments and certain private non-profit organizations for emergency work and infrastructure repairs/replacement following disasters. This workshop is designed for records keepers, administrative and fiscal personnel responsible for cost documentation and/or procurement.
APPENDIX B: RECOMMENDED CURRICULUM

General ICS/NIMS *(It is recommended that the ICS/NIMS courses be completed in the following order.)*
- IS-700 National Incident Command System
- IS-800 National Response Framework
- IS-100 Introduction to Incident Command System
- IS-200 Basic Incident Command System
- G-191 ICS/EOC Interface
- G-300 Intermediate Incident Command System
- G-400 Advanced Incident Command System

Planning *(no particular order)*
- IS/G-235 Emergency Planning
- G-318 Local Mitigation Planning Workshop
- G-358 Evacuation and Reentry Planning
- G-364 Multi-hazard Emergency Planning for Schools
- G-366 Planning for the Needs of Children in Disasters
- OH-101 Developing and Maintaining Emergency Operations Plans
- OH-197 Planning for Access and Functional Needs in Emergencies

Recovery *(no particular order)*
- IS-403 Introduction to Individual Assistance (IA)
- IS-559 Local Damage Assessment
- IS-634 Introductions to FEMA’s Public Assistance Program
- G-205 Recovery from Disaster: The Local Government Role
- OH-605 Individual Assistance (IA) Damage Assessment Workshop
- OH-606 Recovery from Disaster Workshop
- OH-607 Public Assistance Cost Documentation/Damage Assessment Course

Ohio Revised Code *(no particular order)*
- IS-230 Principles of Emergency Management
- OH-230 Introduction to Emergency Management in Ohio
- IS/G-235 Emergency Planning
- IS/OH-139 Exercise Design
- G-205 Recovery from Disaster: The Local Government Role

Severe Weather *(no particular order)*
- G-271 Hazardous Weather
- G-272 Warning Coordination
- G-361 Flood Fight Operations

Public Information *(no particular order)*
- IS-29 Public Information Officer Awareness
- IS-42 Social Media in Emergency Management
- G-289 Public Information Officer (PIO) Awareness
- G-290 Basic Public Information Officer
- G-291 Joint Information Systems / Joint Information Center
